

# Clinical Anatomy Elective 2025

Tuesdays from 16:30, **Small Auditorium**, Anatomy Institute, U Nemocnice 3

**Course Guarantor:** Prof. David Sedmera

The idea is to introduce the discipline of Anatomy to medical students (mostly in preclinical years) through the eyes of practicing clinicians. The format is a series of lectures of carefully selected doctors from different specialties who got the instruction to dwell on the question “How does Anatomy blend with my daily routine?”

**Dates for 2025: 8. 4., 15. 4., 22. 4., 29. 4., 20. 5., 27. 5.**

## List of lectures

- 8. 4.** Jan Novák, M.D., *Klinik für Urologie und Kinderurologie, Klinikum Kulmbac*:  
**Everything you always wanted to know about the male pelvis (but were afraid to ask)**
- 15. 4.** Tomáš Fučík, M.D., *Department of Obstetrics and Gynecology*:  
**Female anatomy from the gynecologist's point of view**
- 22. 4.** David Stehlík, M.D., Ph.D., *Department of Orthopaedics, Motol University Hospital*:  
**Orthopaedist's perspective of the knee joint**
- 29. 4.** Lucie Salavcová, M.D., *Department of Spondylosurgery, 1st Medical Faculty, Charles University and University Hospital Motol*:  
**Age-specific injuries: anatomy and management of childhood fractures**
- (13. 5. – Rector's Day – no classes!)
- 20. 5.** Assoc. Prof. Aleš Hejčí, M.D., Ph.D., *Neurosurgical Department, Masaryk Hospital, J.E. Purkyně University, Ústí nad Labem*: **Neurosurgery of the Spinal Cord**
- 27. 5.** Alberto Malucelli, M.D., Ph.D., *Neurosurgical department, Skull base anatomy lab, Masaryk Hospital, J.E. Purkyně University, Ústí nad Labem*  
**Pituitary gland: a neurosurgical perspective**

**Credits** are awarded based on 1) attendance (at least 5/6 required) and a 2) brief knowledge retention test at the final lecture. The questions will be one per lecture, and the answers will be quite obvious to those who sat awake through the lectures.
