

HEAD AND NECK VESSELS AND NERVES

(clinical applications)

Chovanec M^{1,2}

¹Dep. of Otorhinolaryngology, 3rd Medical Faculty, University Hospital Kralovske Vinohrady

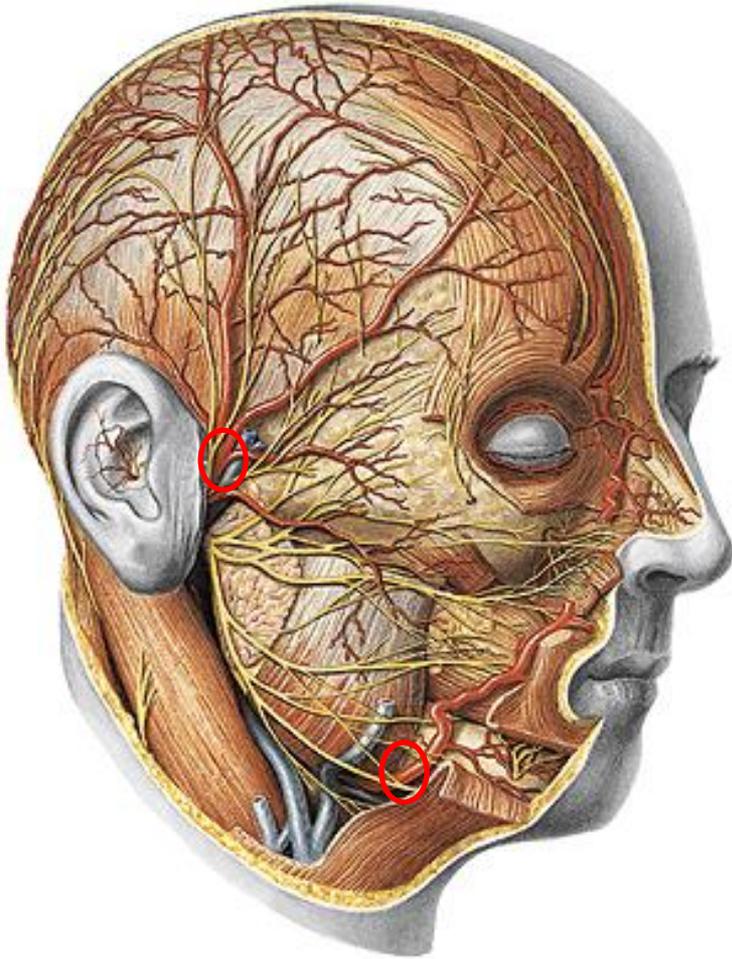

²Inst. of Anatomy, 1st Medical Faculty

Charles University Prague

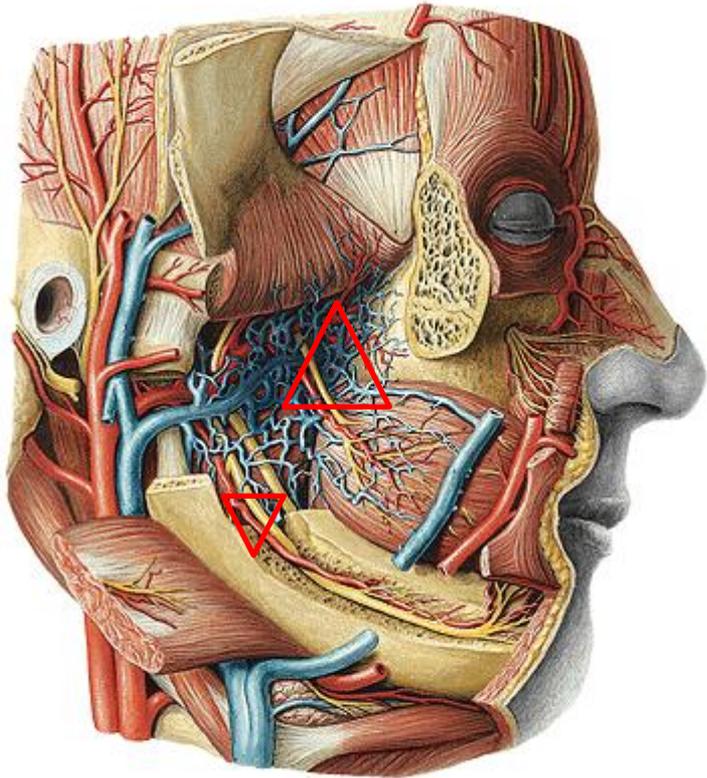

Arteries of the head

Bleeding - compression
facial a.
superf. temporal a.

Arteries of the head

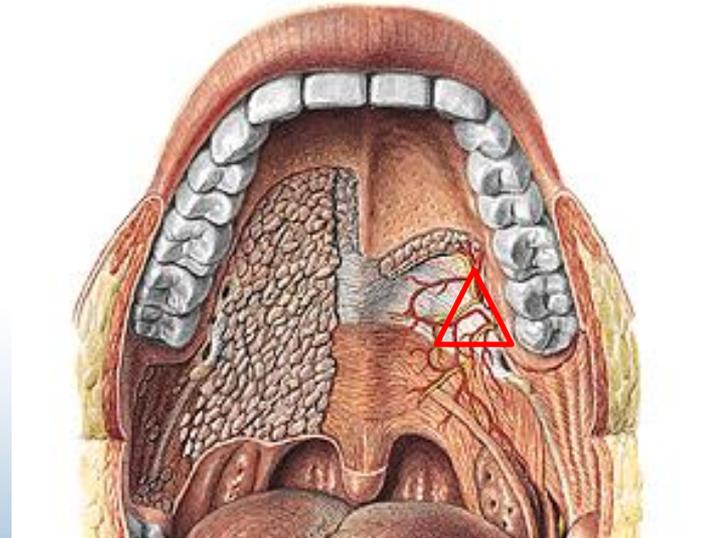

bleeding - compression

gret. palatine a.

inf. alveolar a. – alveolus

pterygoid v. plexus

Arteries of the head

bleeding - ligation

lingual a.

(Pirogov's tr. Béclard's ang)

facial a.

(submandibular tr.)

maxillary a.

(infratemporal f.)

ext. carotid a.

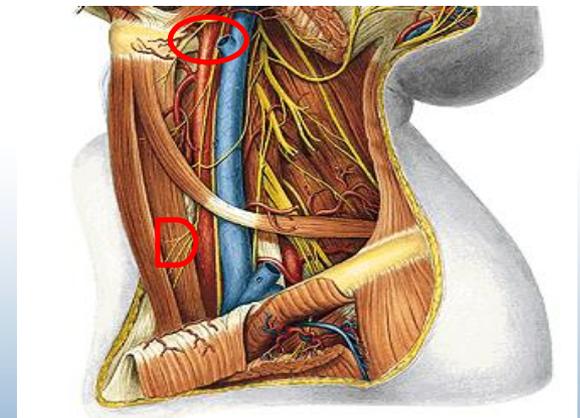

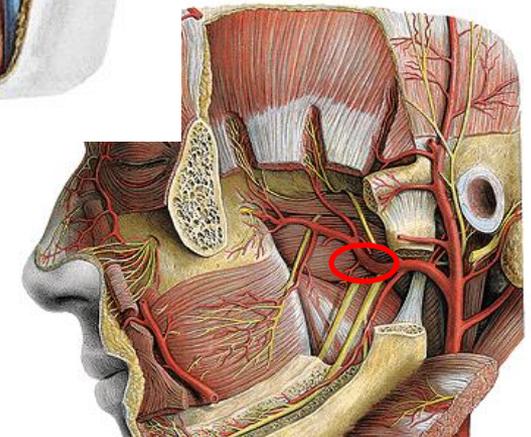

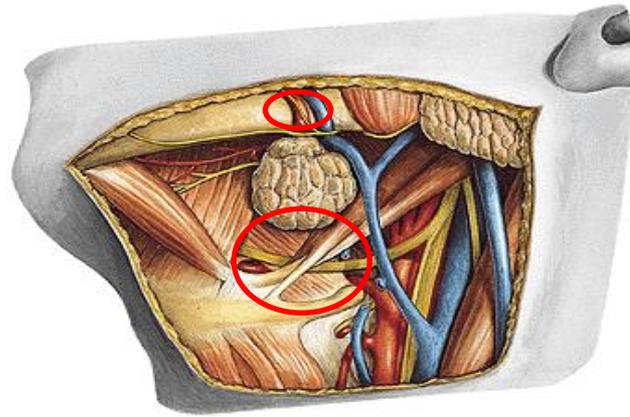

(carotic tr.)

comon carotid a.

(arterial circle of Willis!)

comon carotid a.

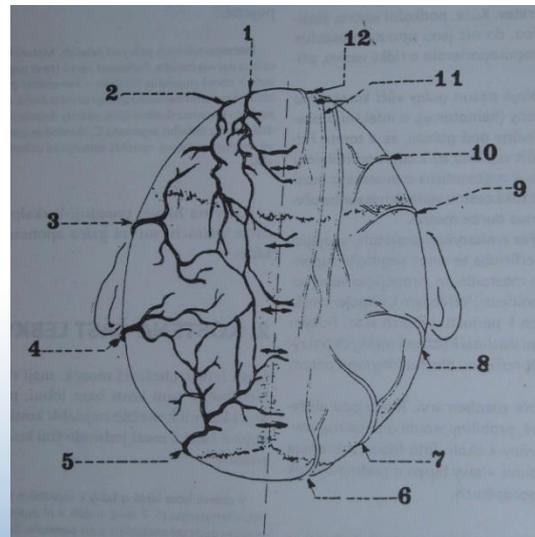

(compression – carotic tr. - transv. pr. C6)

Arteries of the head

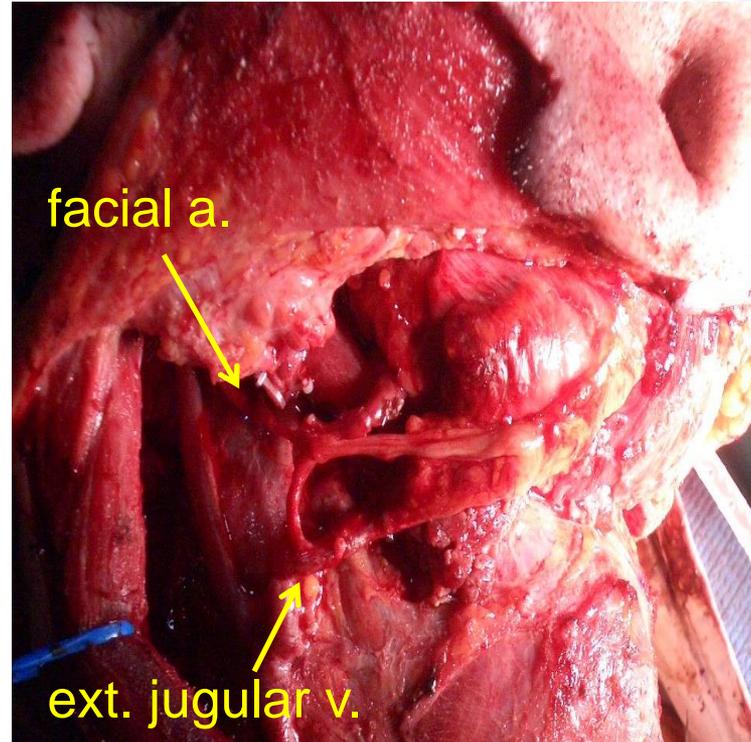

skin incisions

arteries and nerves of the scalp

- 1 - supratrochlear a.
- 2 - supraorbital a.
- 3 - superf. temporal a.
- 4 - post. auricular a.
- 5 - occipital a.
- 6 - tert. occipital n.
- 7 - great. occipitali n.
- 8 - lesser occipital n.
- 9 - auriculotemporal n.
- 10 - zygomaticotemporal n.
- 11 - supraorbital n.
- 12 - supratrochlear n.

Arteries of the head

microvascular reconstruction
(rect. abdominis free flap)

Arteries of the head

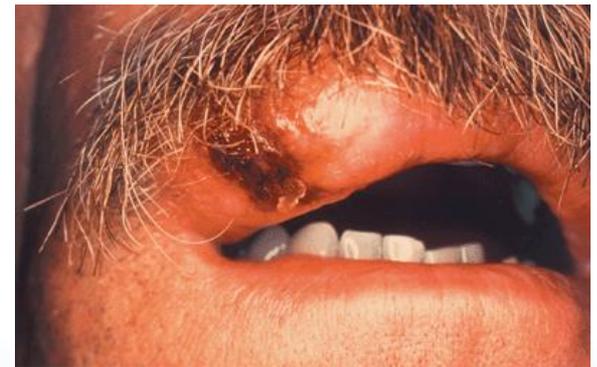

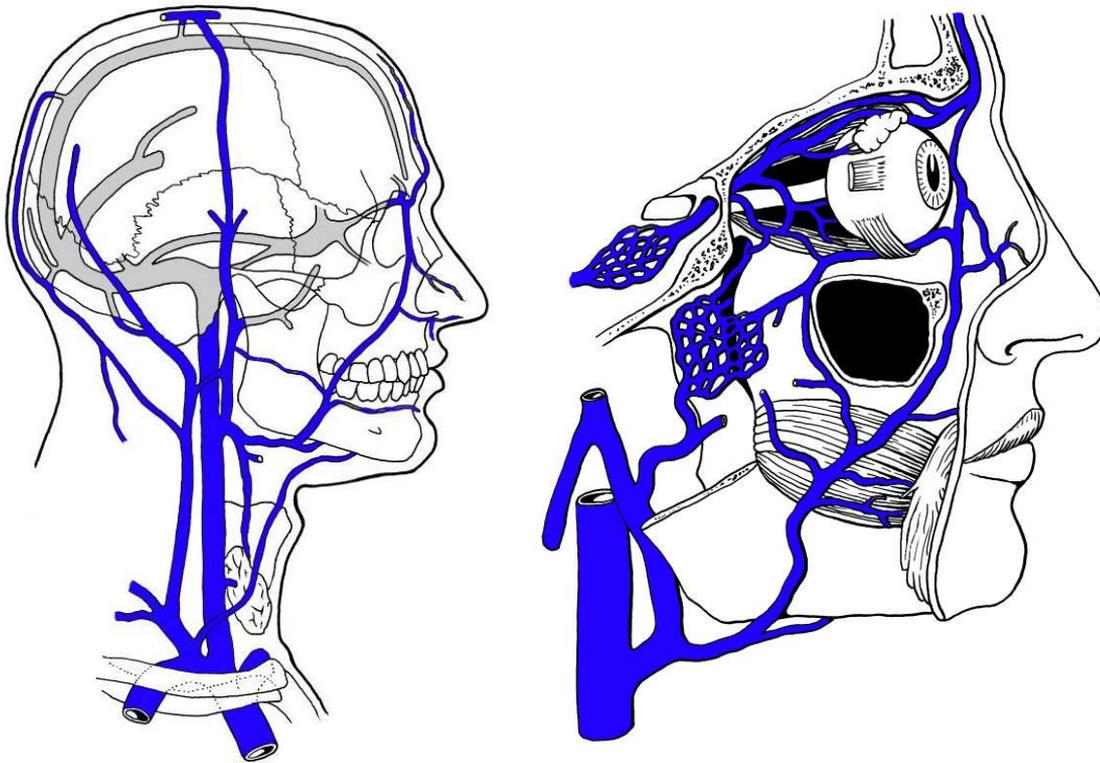

CAVE!: anastomoses
ext. and int. carotid aa.
supratrochl. a./angular a.
vidian a.

Angiofibroma of nasopharynx
(sphenopalatine f.) maxillary a. -
angiography and embolization

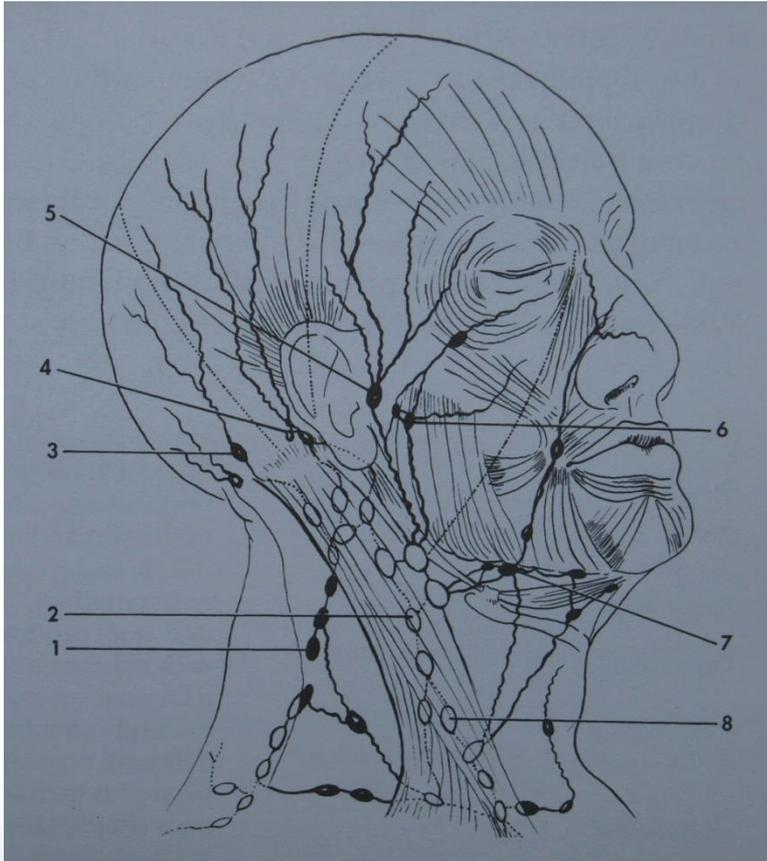

Veins of the head

venous anastomoses (spread of infection)

- facial v. • supraorbital/supratrochlear v. •
- sup. and inf. ophthalmic vv. • cavernous s. •
- pterygoid v. pl. • maxillary v. •
- retromandibular v. • ext. palatine v. • deep facial v. •
- superf. and med. temp. vv. • parotid vv. • transv. facial v.

Lymphatic drainage of the head

Lymph nodes of the head and neck

(acc. to Borovanský 1976)

- 1 - cervic. superf. LNs
- 2 – deep sup. cervical LNs
- 3 – occipital LNs
- 4 – retroauricular LNs
- 5 – preauricular LNs
- 6 – parotid LNs
- 7 – submandibular LNs
- 8 – deep inf. cervical LNs

Sensitive innervation of the head

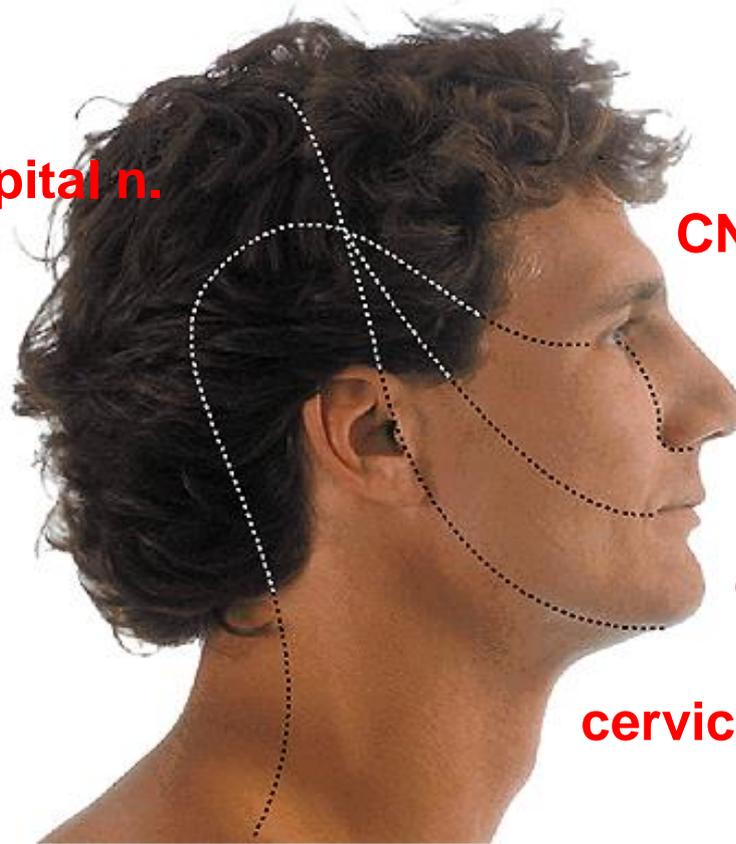

gr. occipital n.

CN V/1

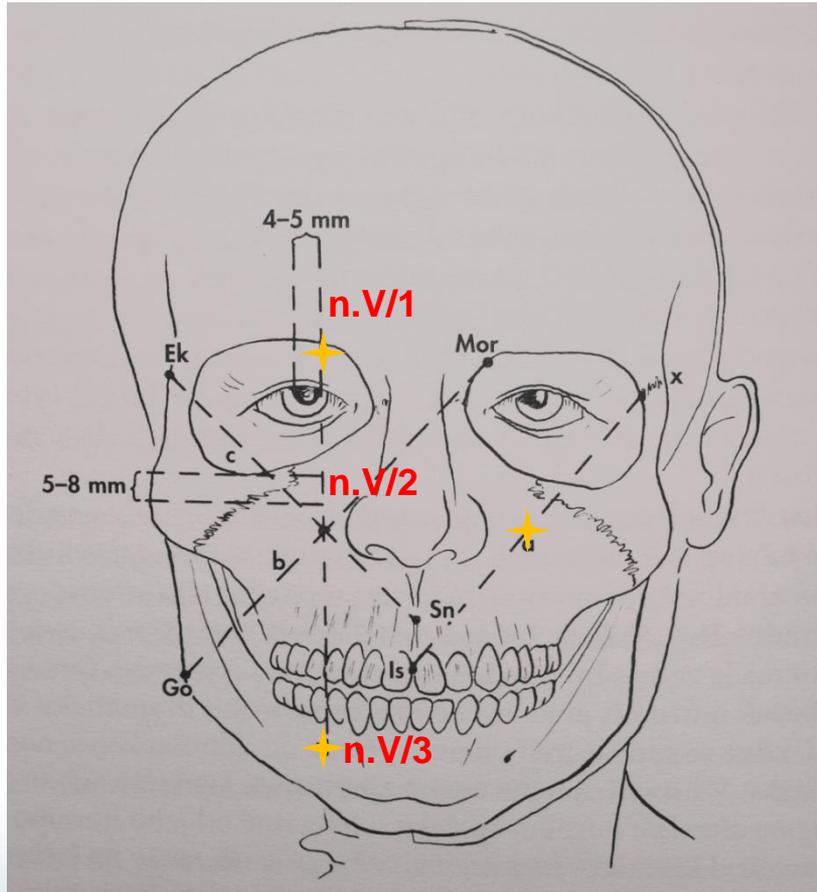

CN V/2

CN V/3

cervical pl.

Sensitive innervation of the head

Exit points of CN V

Ek - ektokonichion

Go - goniale

Is - incisale superius

Mor - medioorbitale

x – frontozygomatic s.

a – line of Černý

b – line - Mor a Go

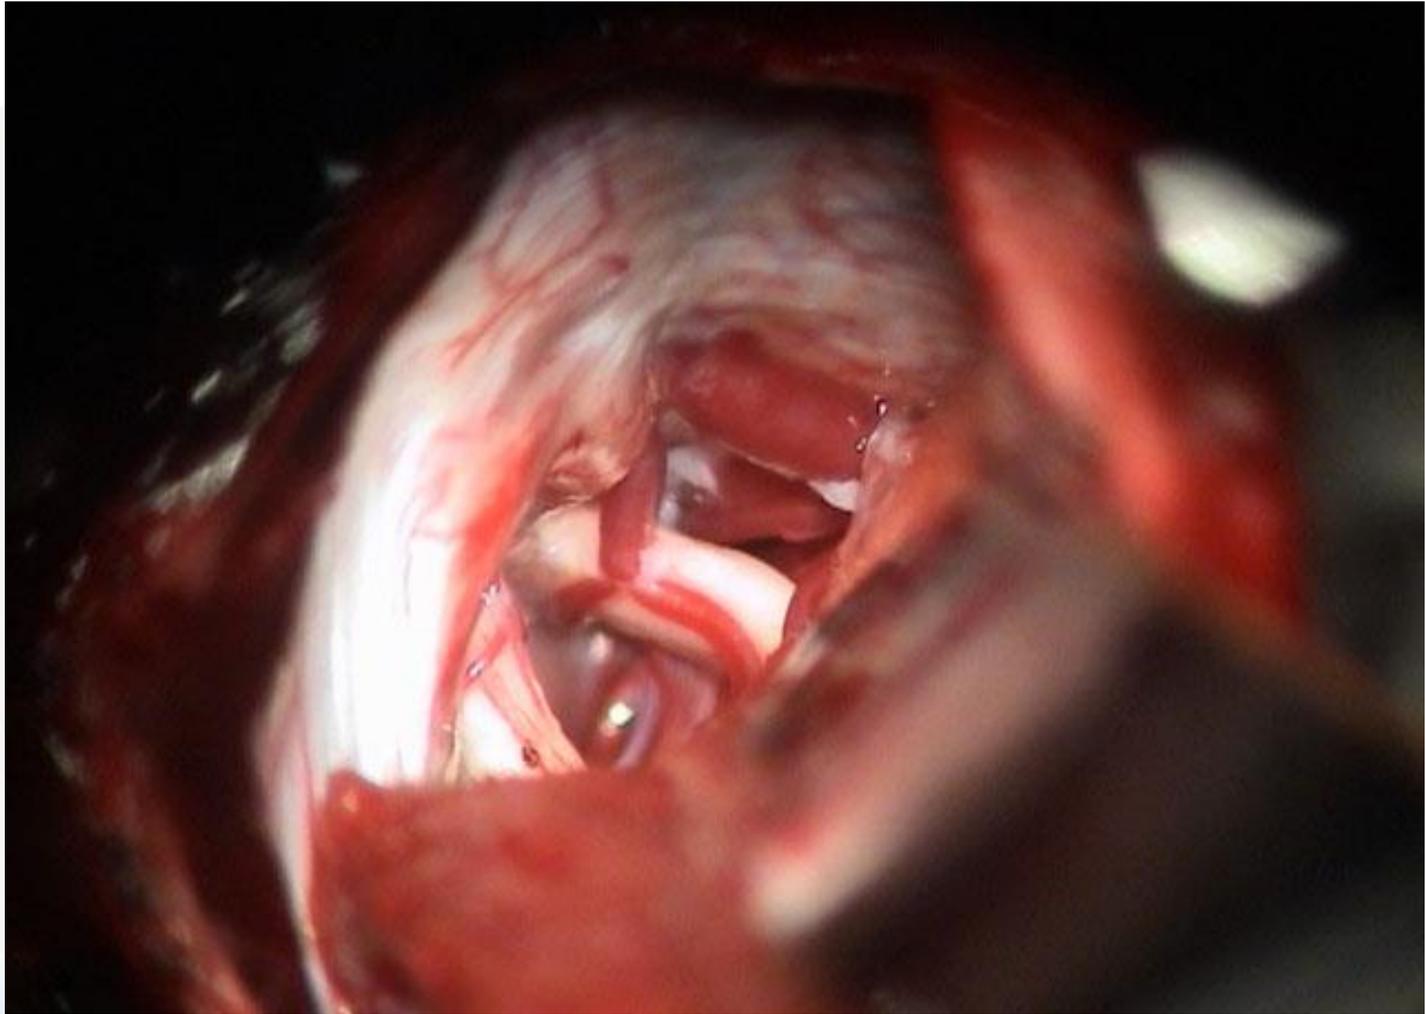

c – line - Sn a Ek

Sensitive innervation of the head

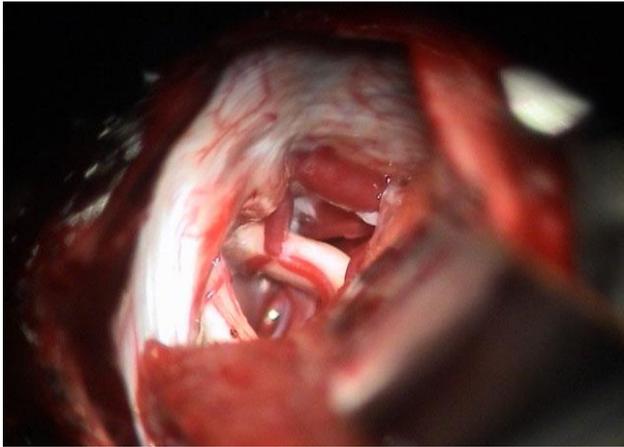

palpation

Esencial neuralgia of CN V

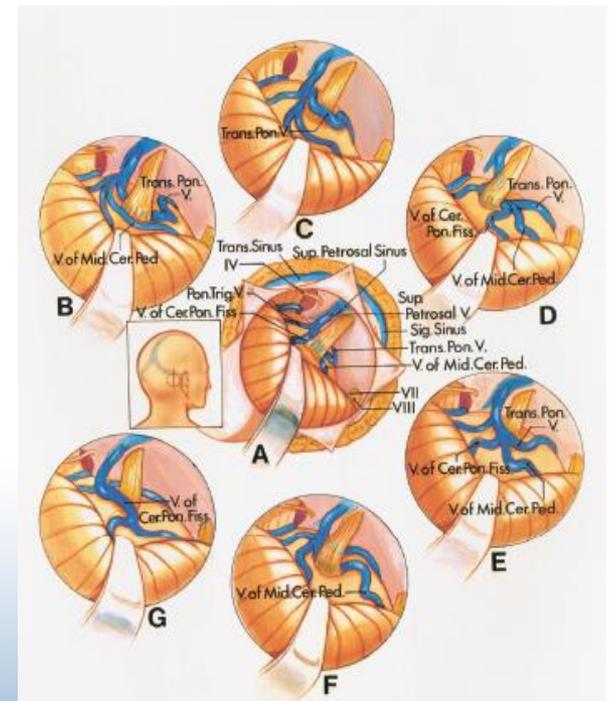

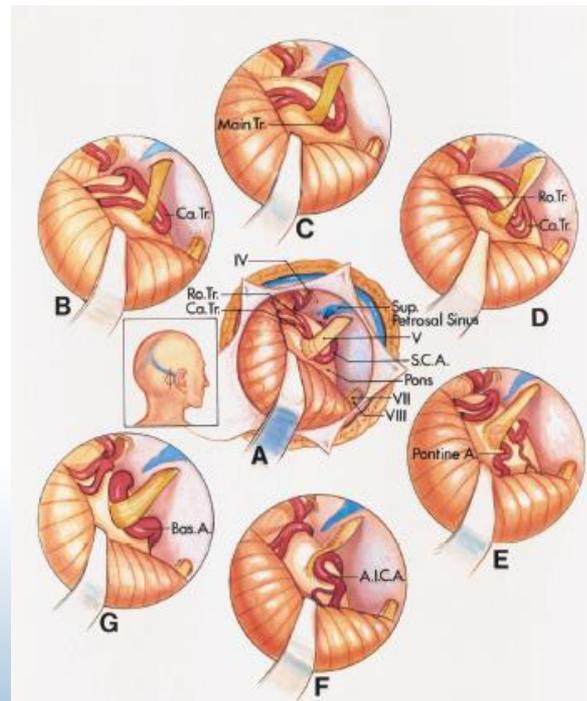

neurovascular conflict of CN V and AICA

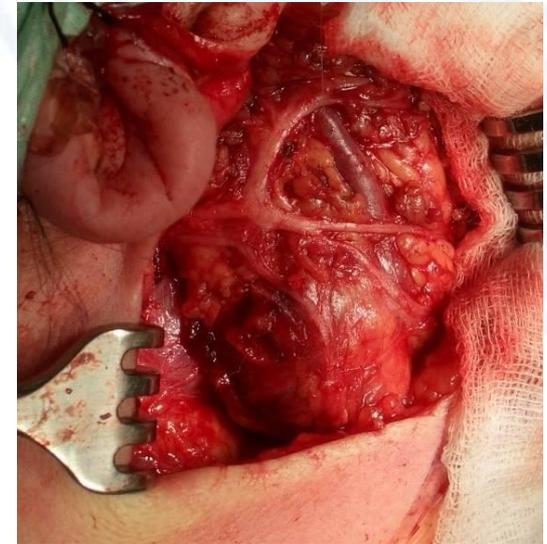

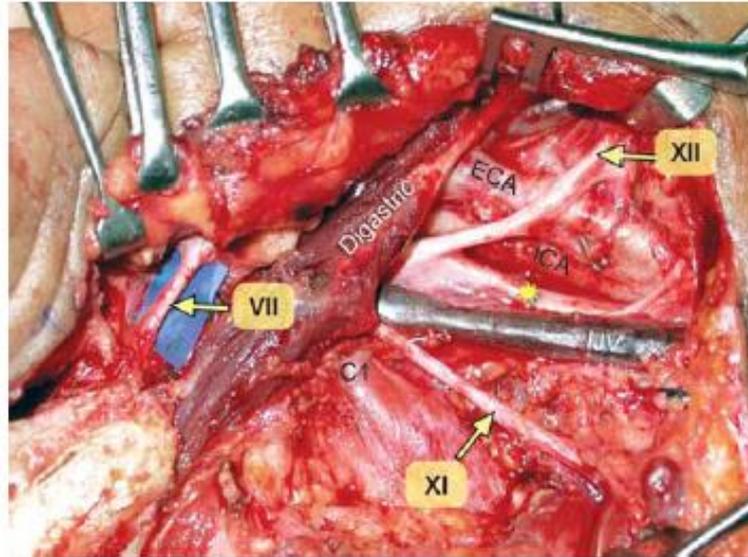

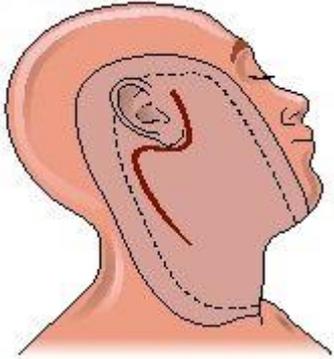

Esenciální neuralgie n. V

neurovaskulární konflikt

CN.VII and parotid gland surgery

superf. parotidectomy

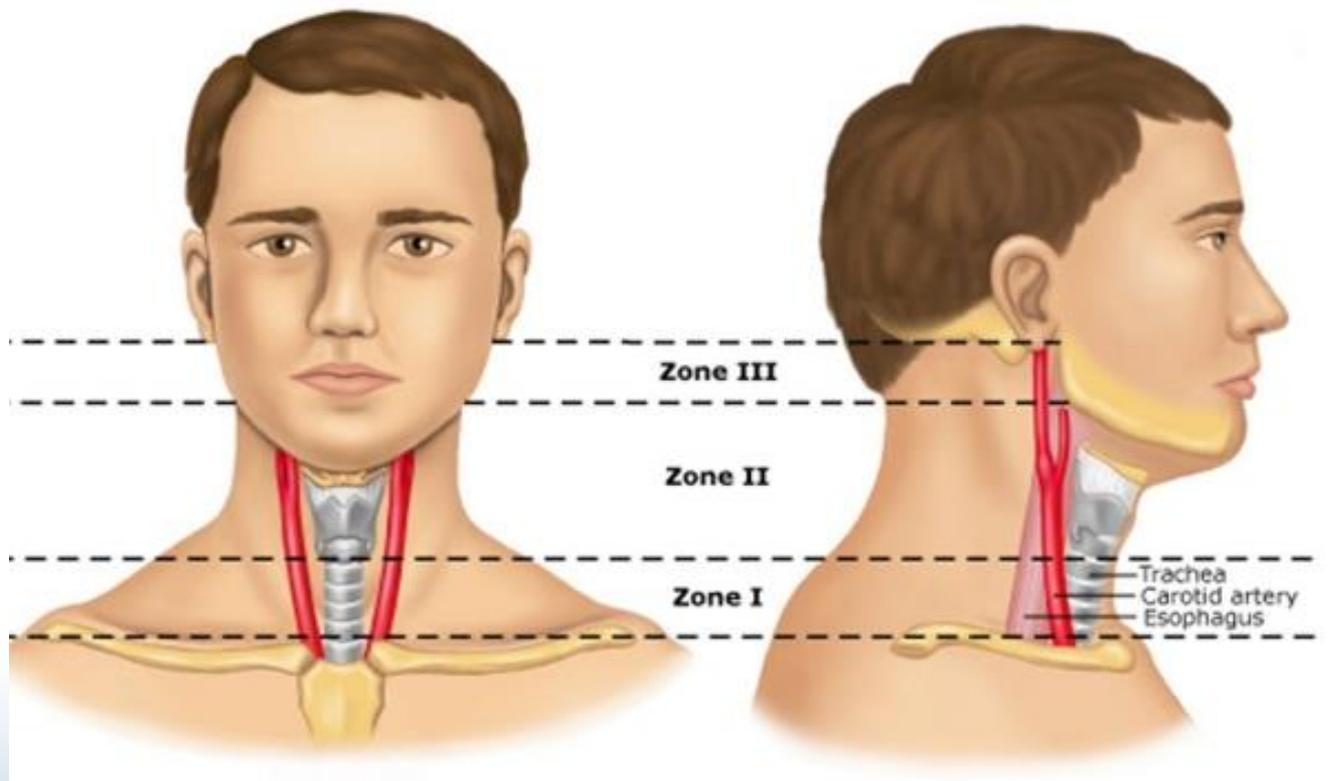

CN VII identification (landmarks)

pointer

tympanomastoid suture

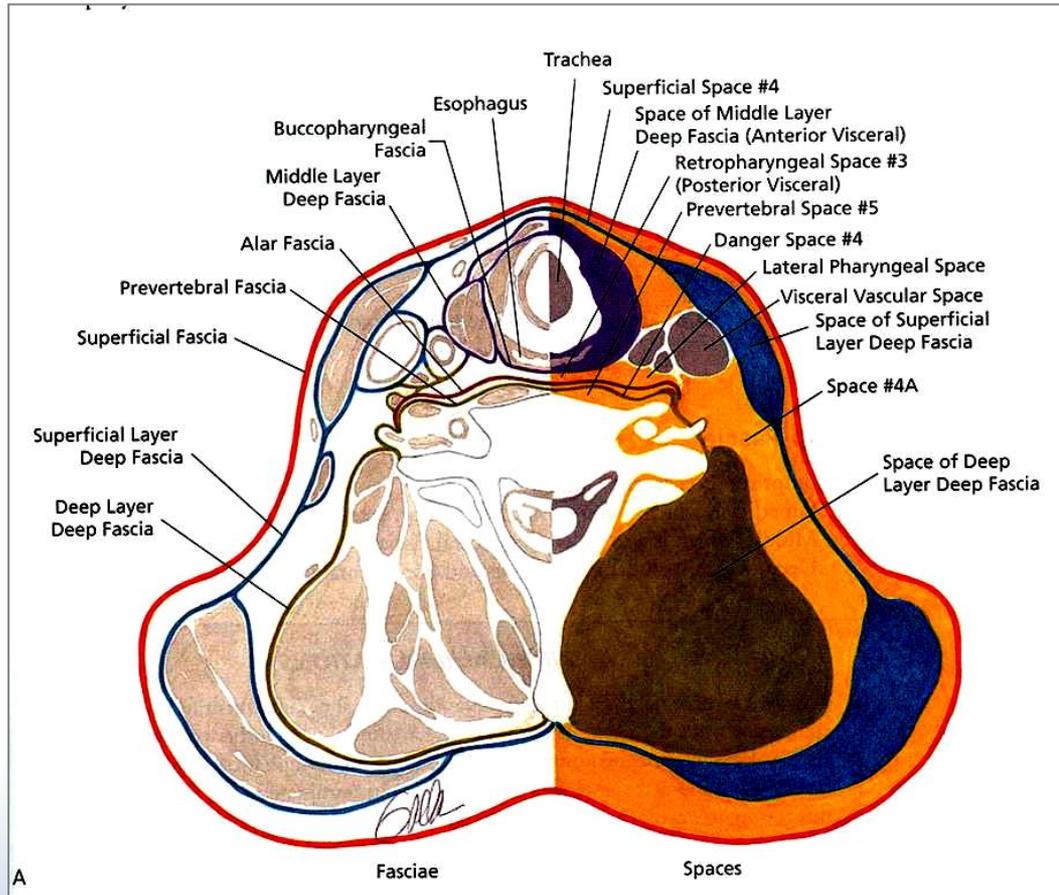

digastric/m, sternocleidmastoid muscle

Penetrating neck injury - Neck zones

Neck dissection

(surgical treatment of neck metastases)

**fascial
compartmentalisation**

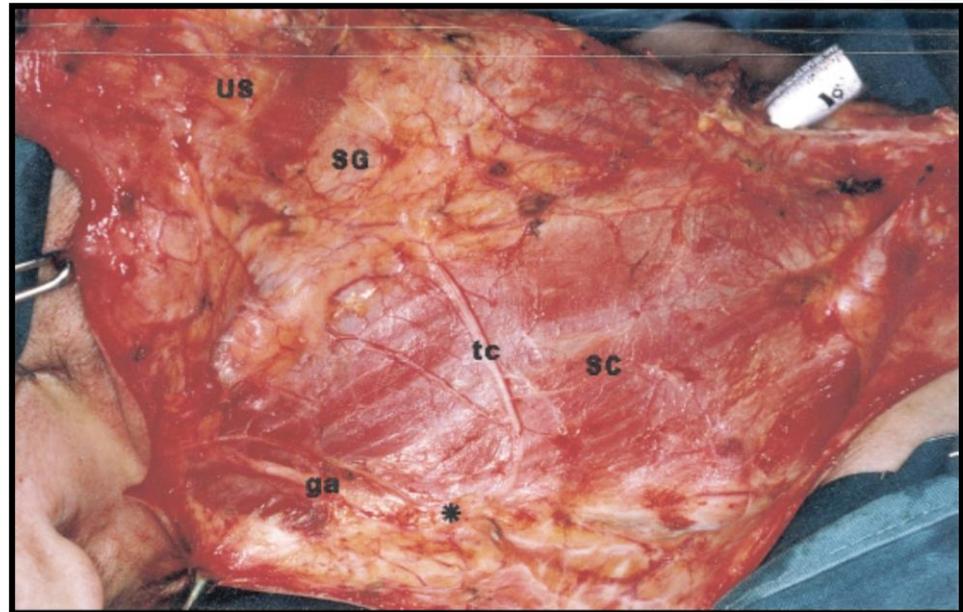

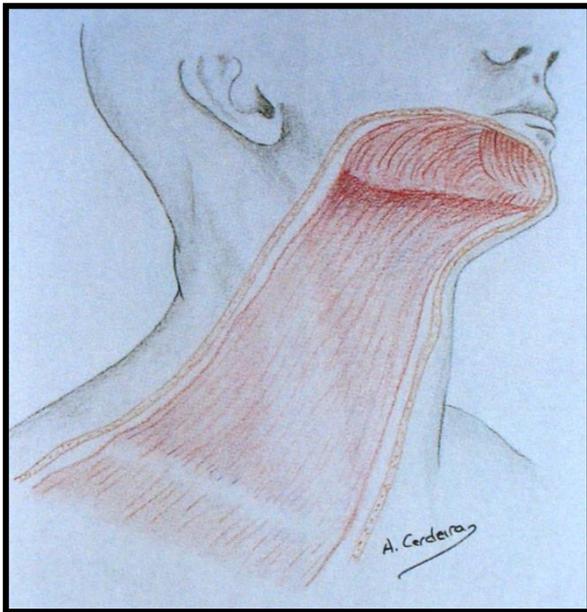

neck dissection

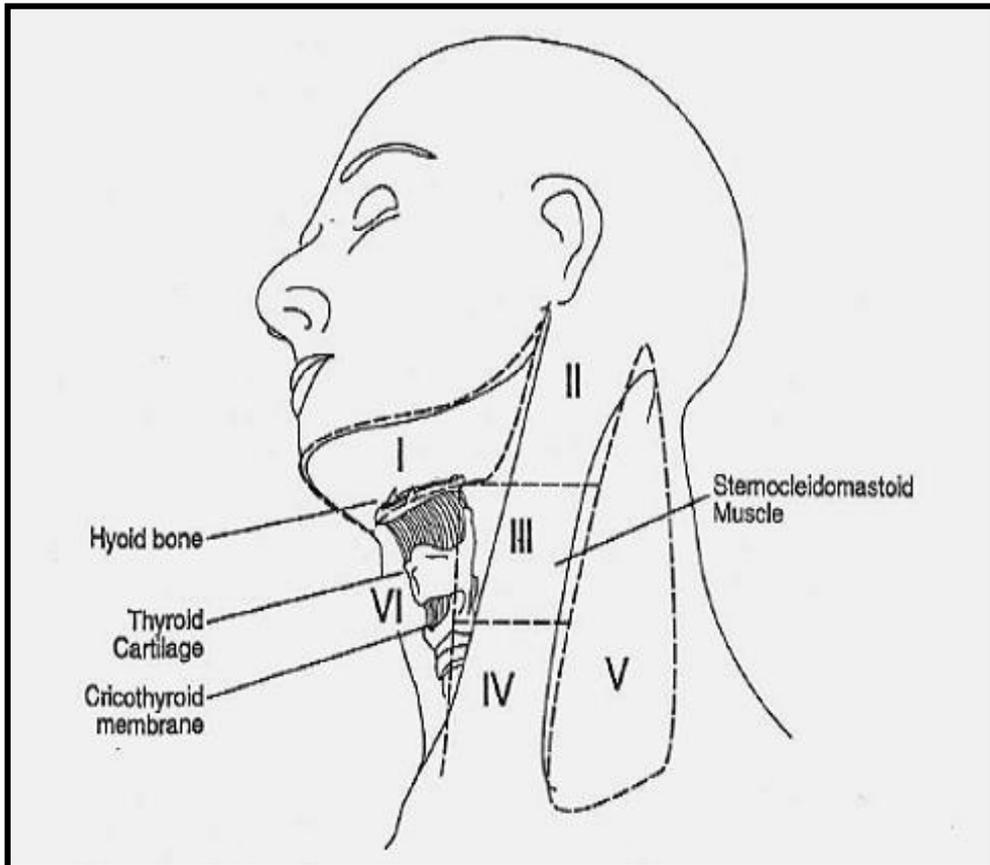

**lymph node metastases
exstirpation does not
have impact on the
prognosis of HNSCC**

Platysma muscle

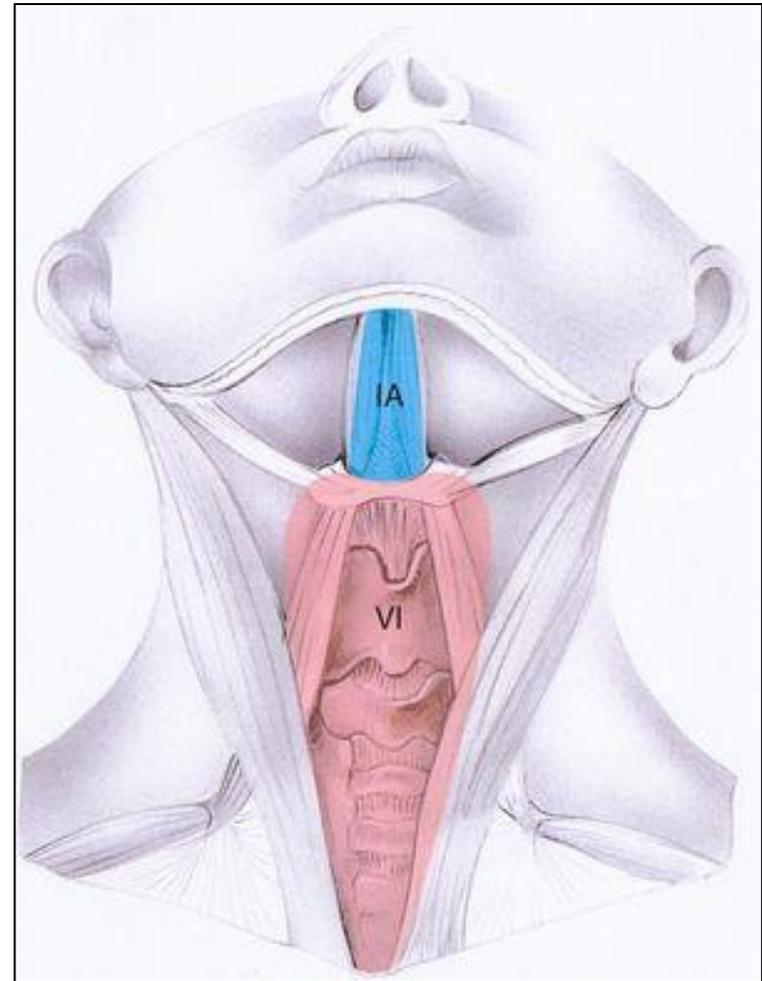

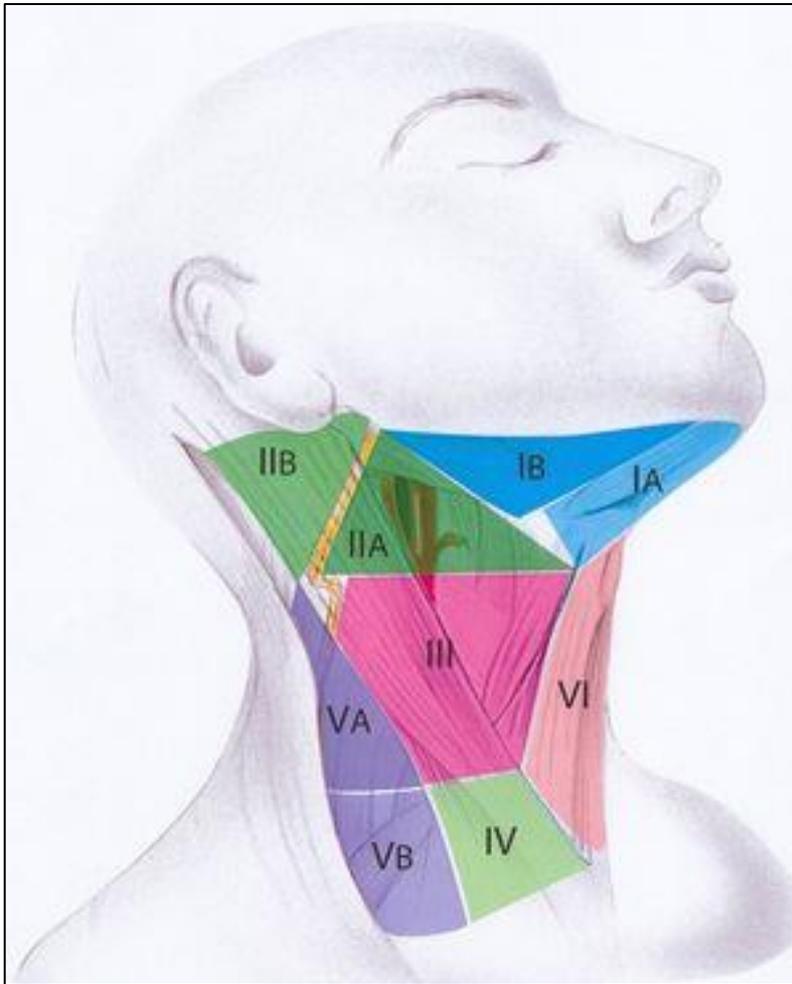

Neck lymph node levels

Classification of the system of deep neck lymph nodes (Memorial Sloan-Kettering Cancer Center)

Neck lymph node levels

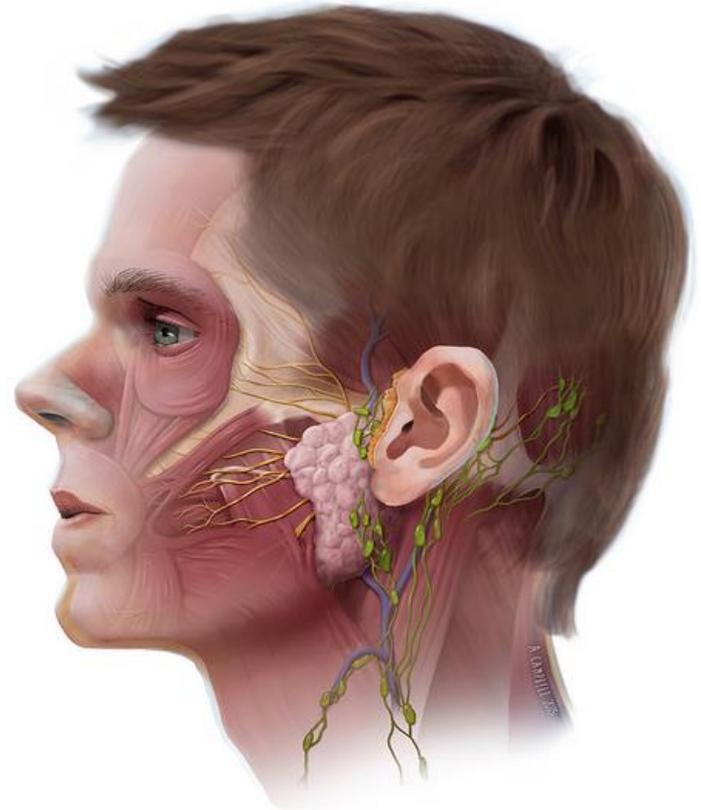

Subclassification of the level I, II, and V

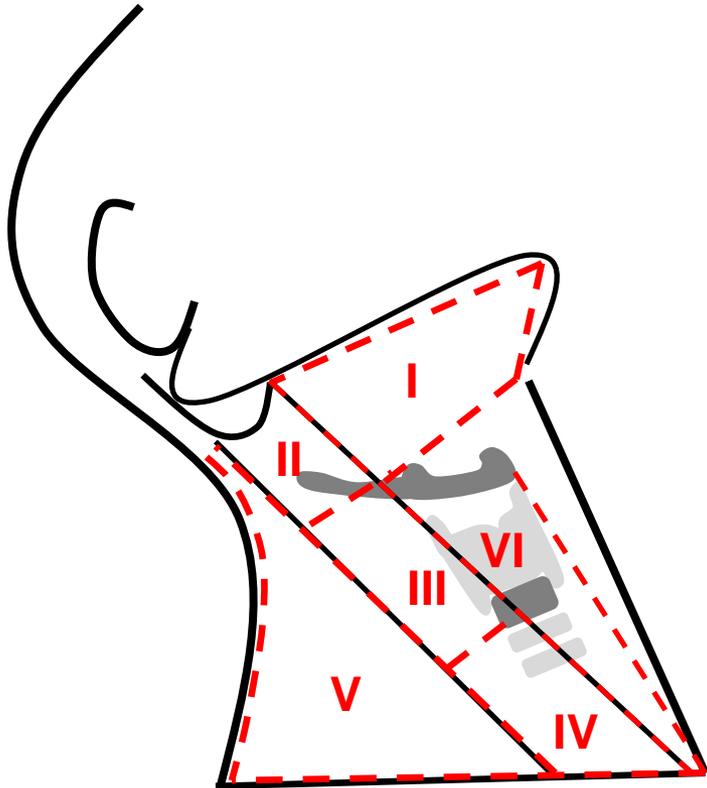

Neck lymph node levels

Lymph nodes outside of level I-VI (VII)

- **perifacial**
- **periparotid**
- **retroauricular**
- **suboccipital**
- **parapharyngeal**
- **retropharyngeal**

Drainage pattern to lymph nodes levels

I: lip, oral cavity, nasal vestibule, external nose, submandibular gland

II: nasopharynx, posterior parts of oral cavity, oropharynx, supraglottis, hypopharynx, thyroid gland, parotid gland

III: hypopharynx, larynx, tongue, thyroid gland

IV: hypopharynx, subglottis, cervical oesophagus, thyroid gland, organs below the clavicle

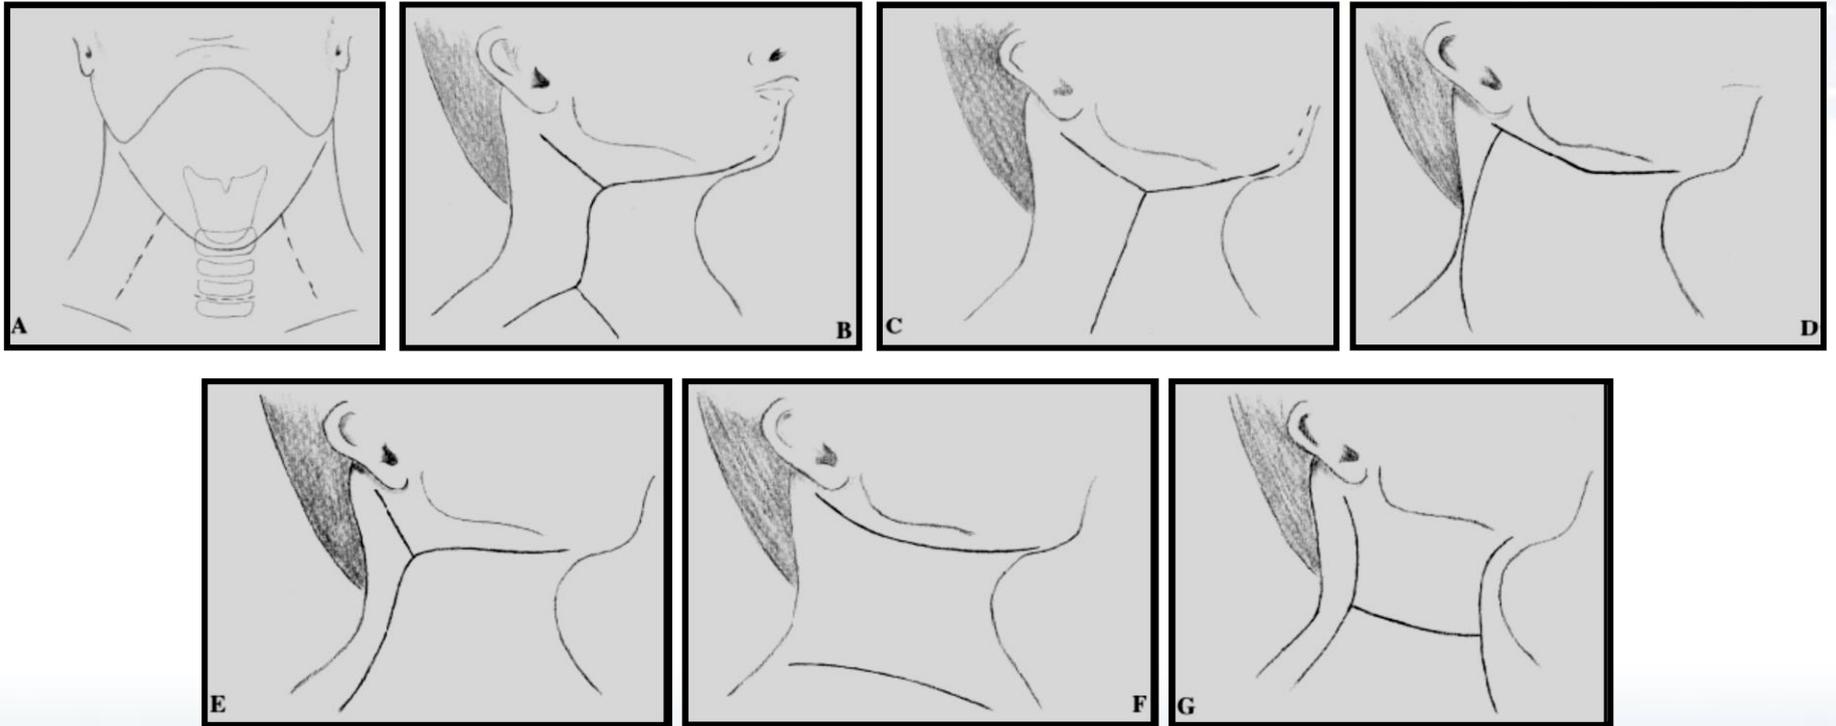

V: nasopharynx, posterior scalp

VI: thyroid gland, hypopharynx, cervical oesophagus, organs below the clavicle

Preauriculars: scalp, face, thyroid gland, external ear, oral cavity

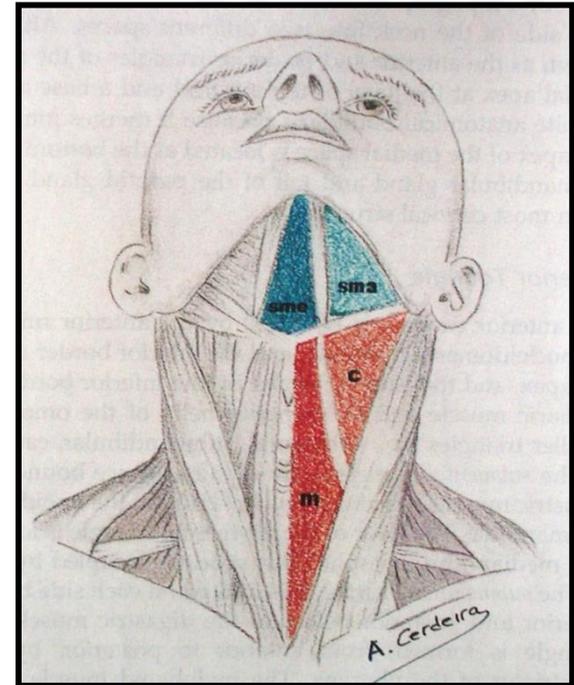

Retroauricular and nuchal: scalp, external ear

Neck dissection – incision lines

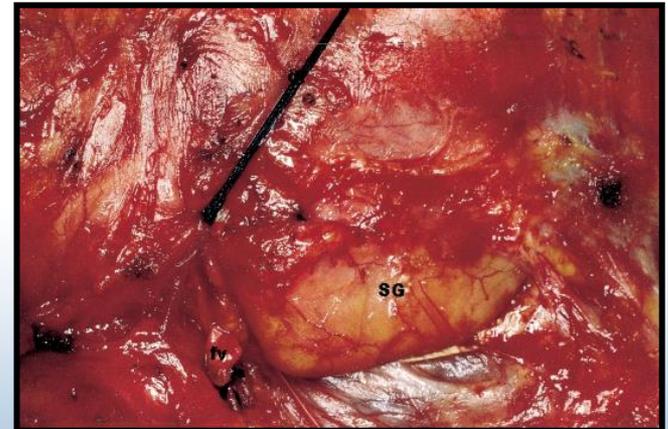

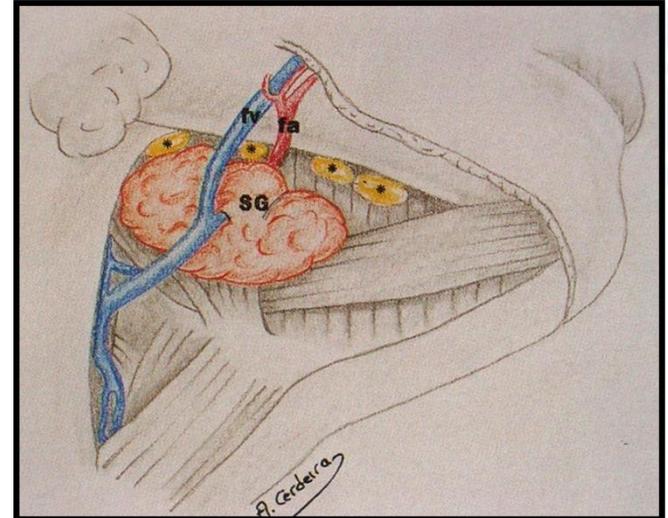

Level I

- **Submental triangle (Ia):**
 - anterior belly of digastric m.
 - hyoid
 - mylohyoid m.
- **Submandibular triangle (Ib):**
 - anterior belly of digastric m.
 - posterior belly of digastric m.
 - mandible

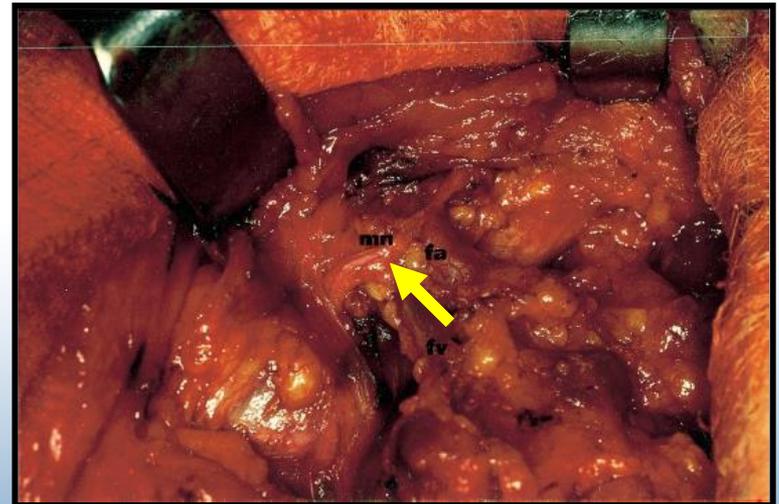

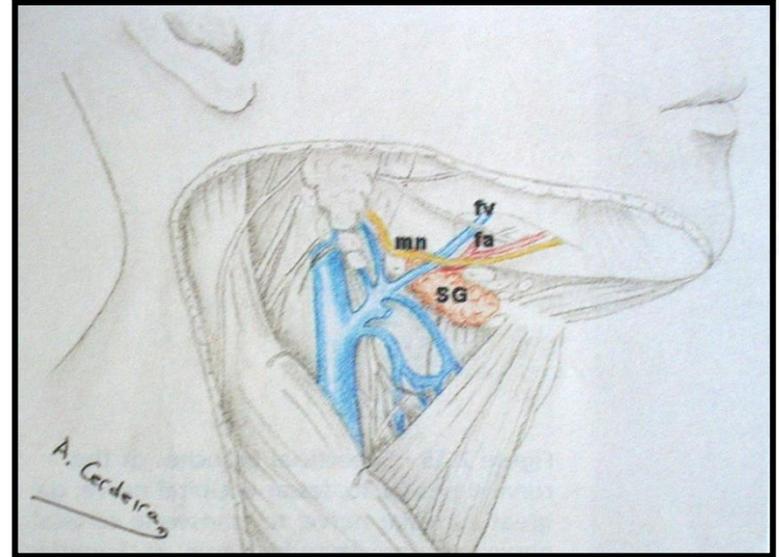

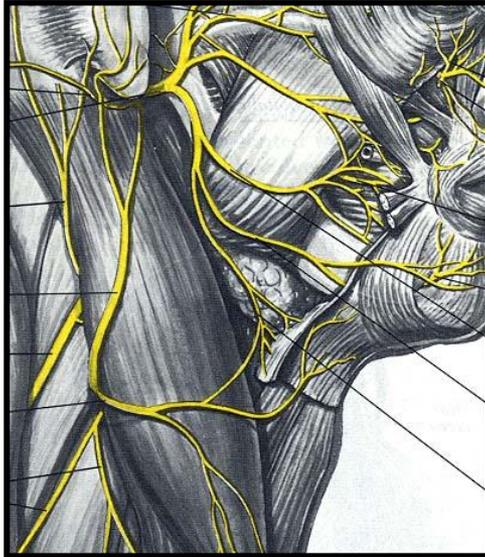

Level I

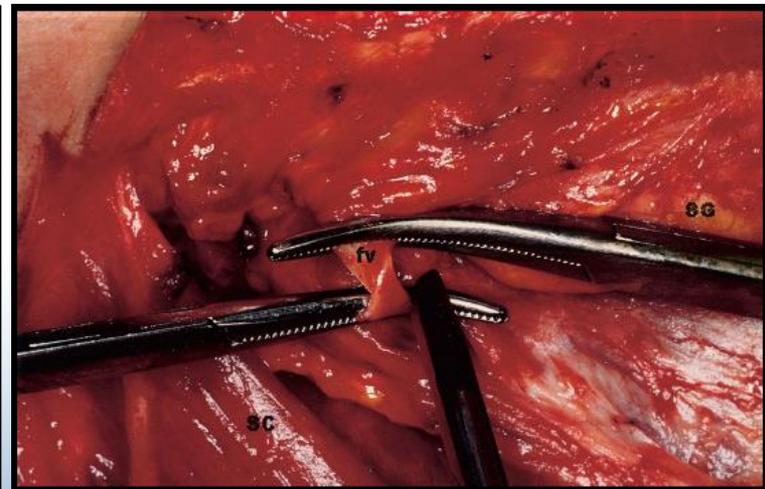

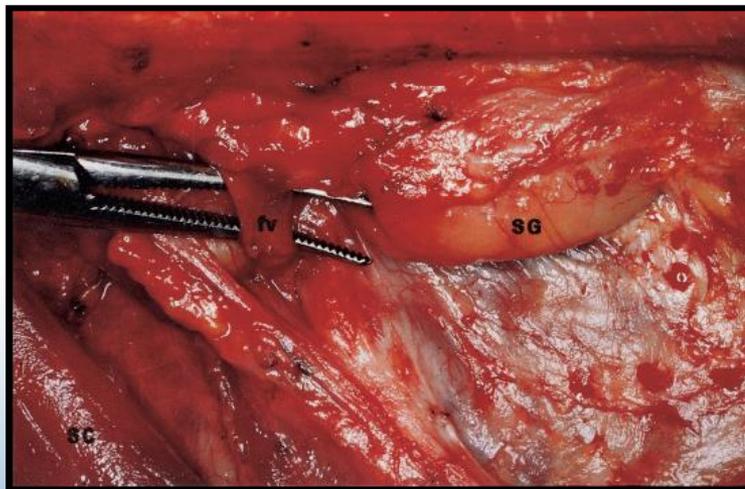

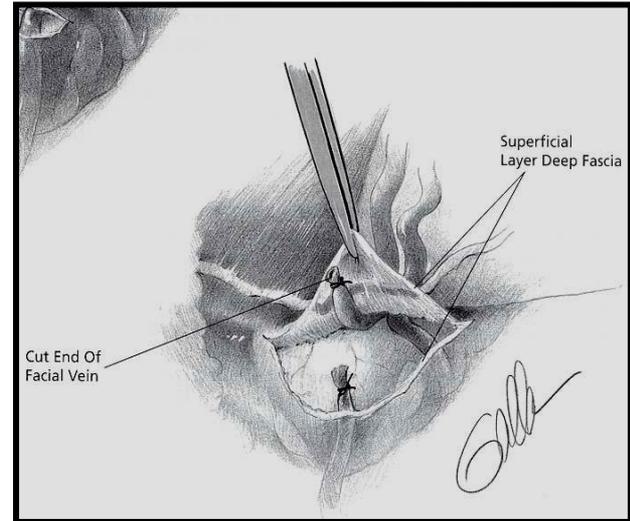

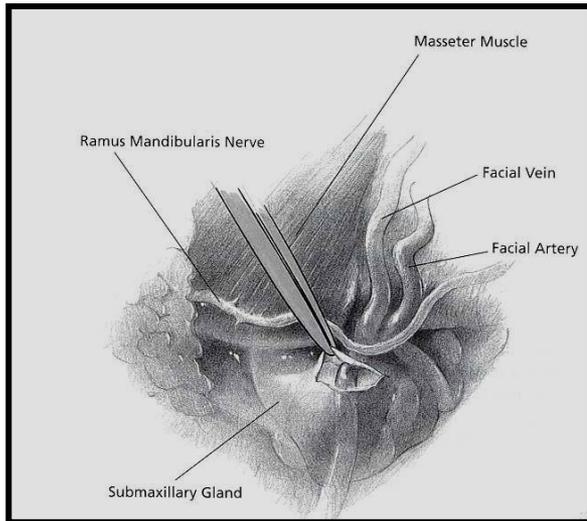

- **Ia: chin, lower lip, anterior floor of mouth, gingiva of incisors, apex of tongue**
- **Ib: oral cavity, oral part of tongue, anterior part of nasal cavity**

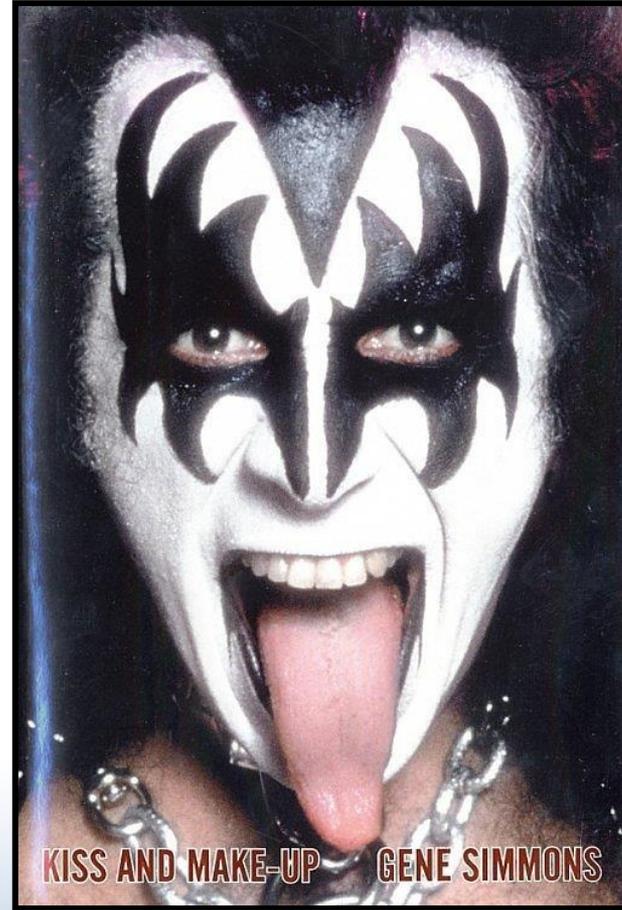

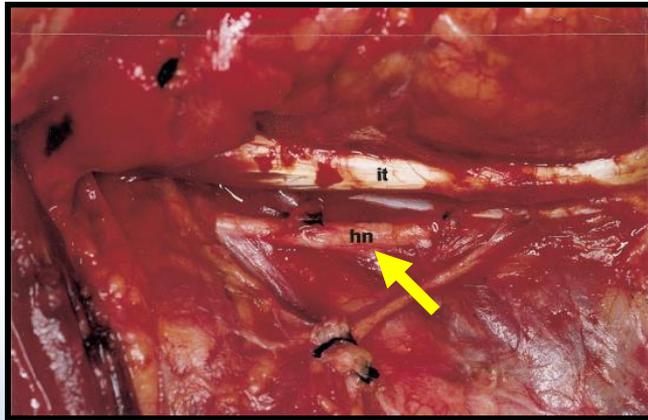

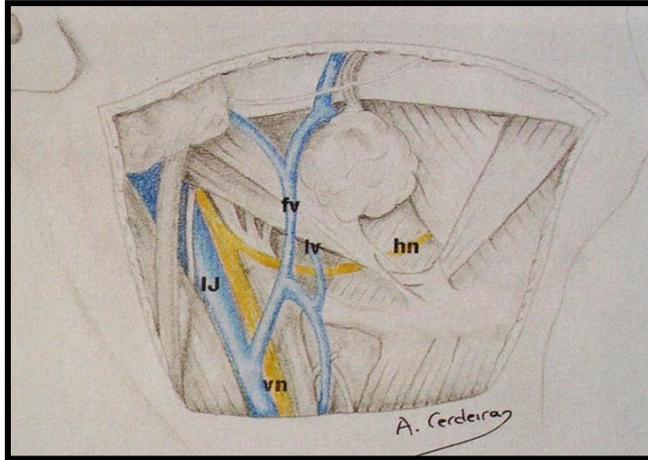

Marginal nerve (CN VII)

Marginal nerve (CN VII)

CN XII

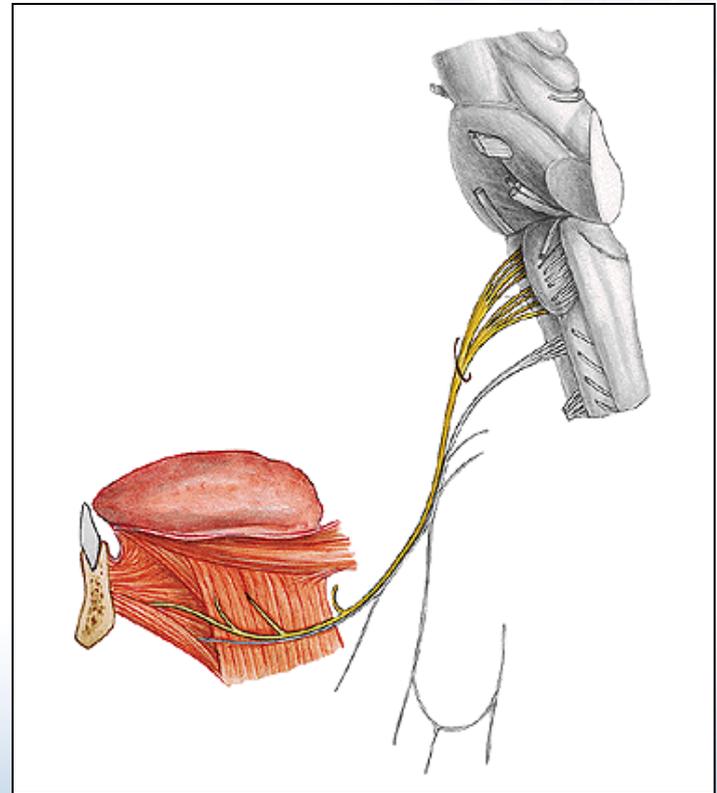

KISS AND MAKE-UP GENE SIMMONS

CN XII

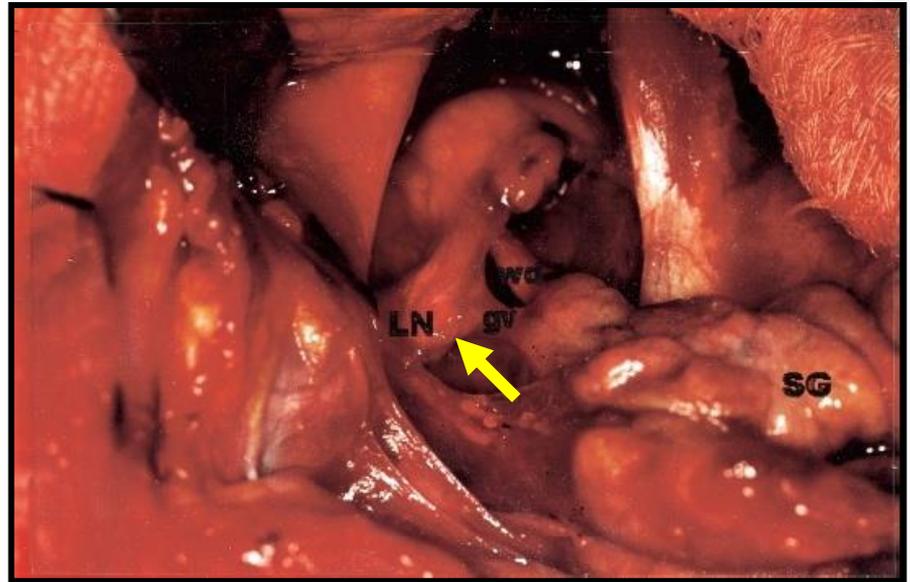

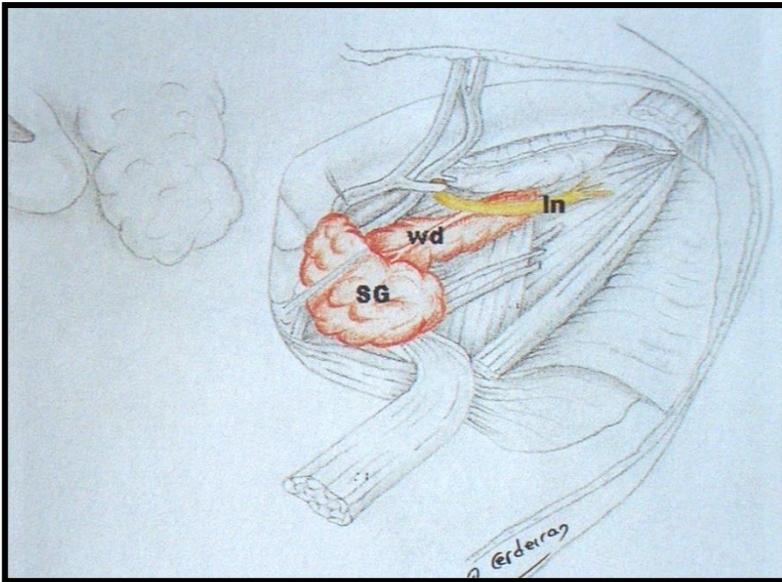

palsy

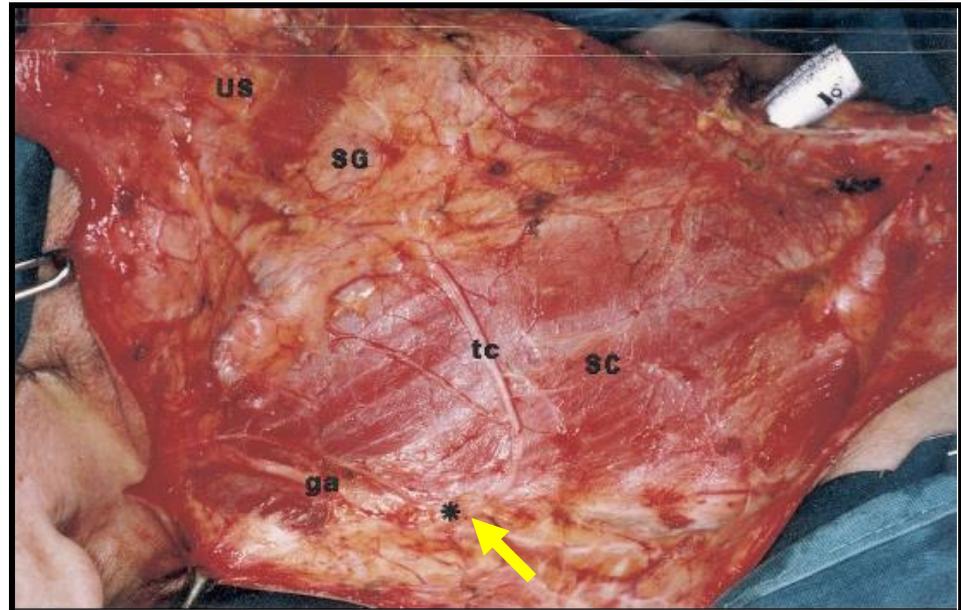

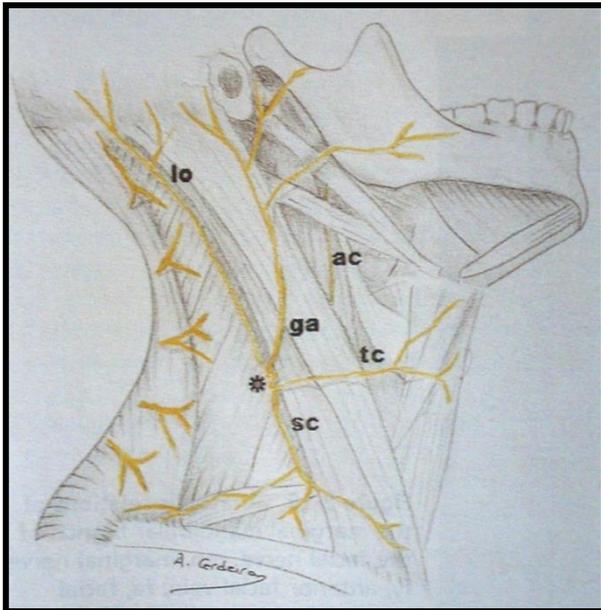

left CN XII schwannoma

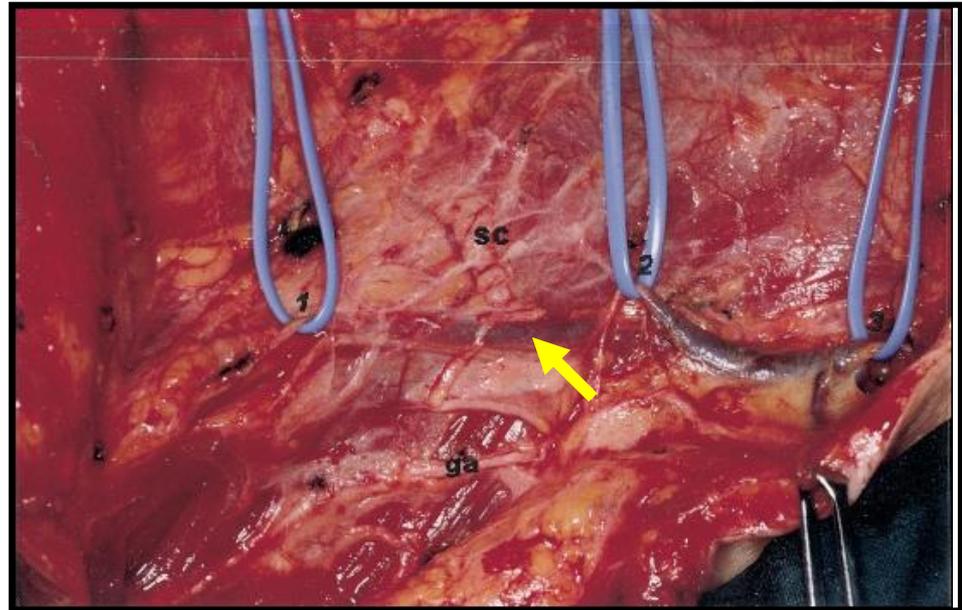

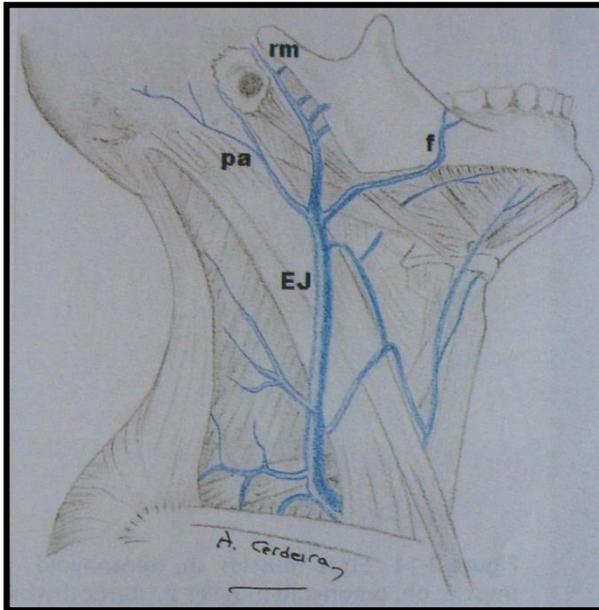

Lingual nerve (CN V/3)

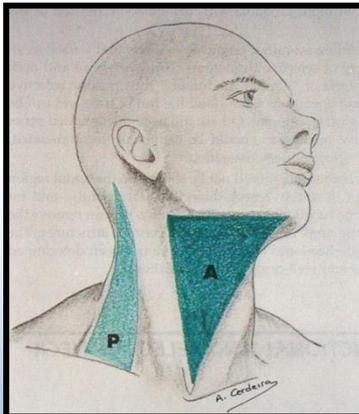

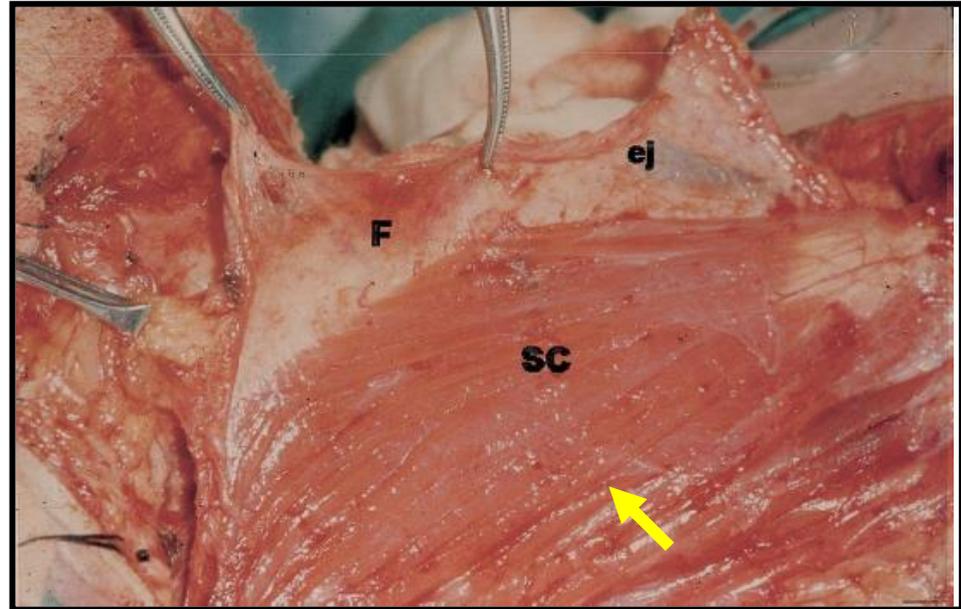

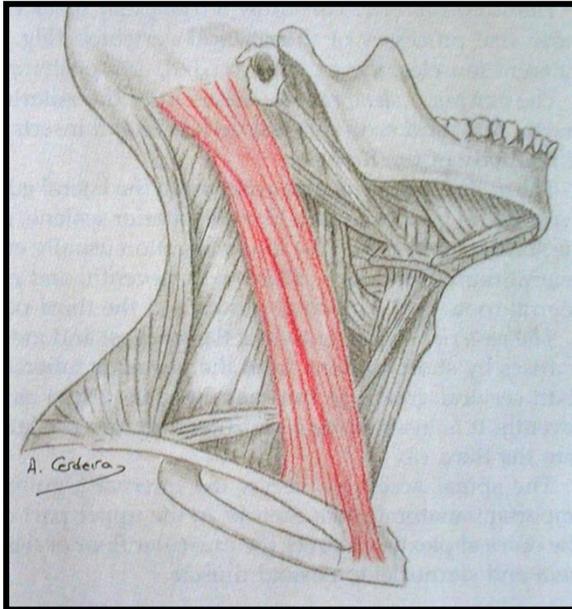

Cervical plexus

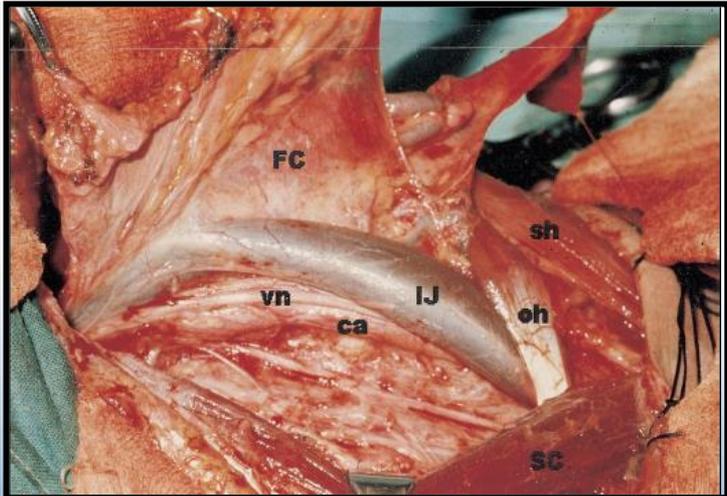

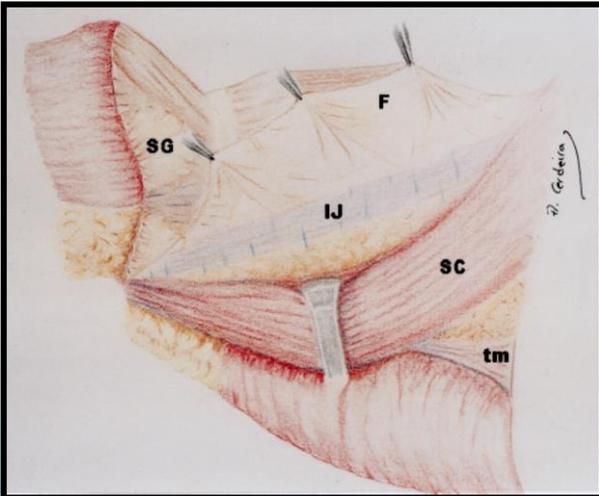

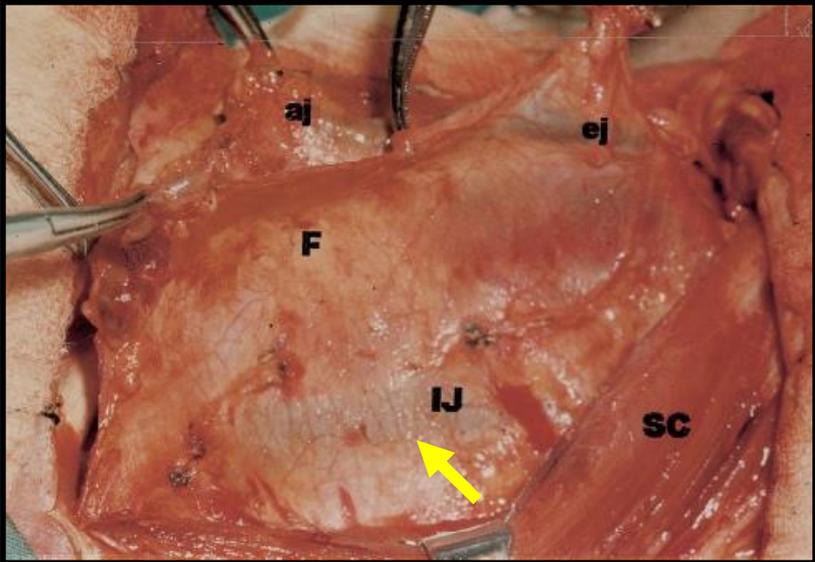

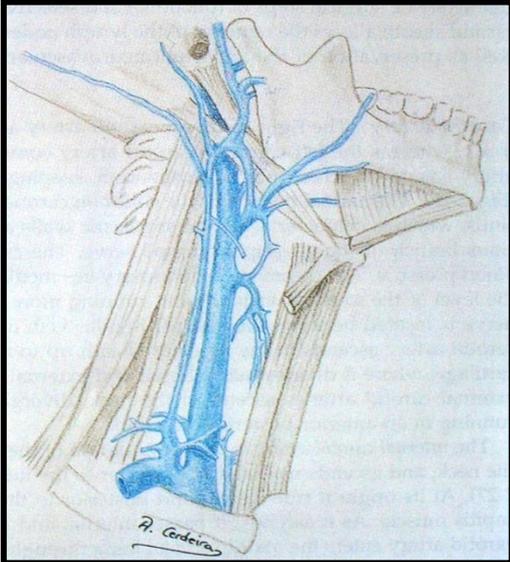

External jugular vein

Sternocleidomastoid muscle

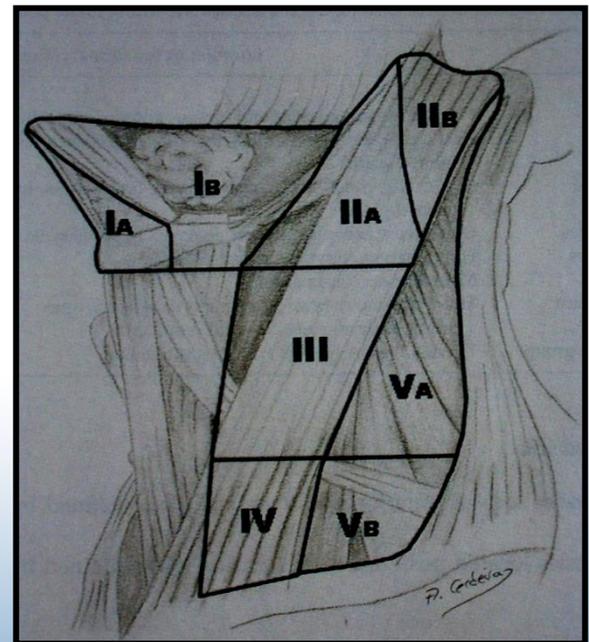

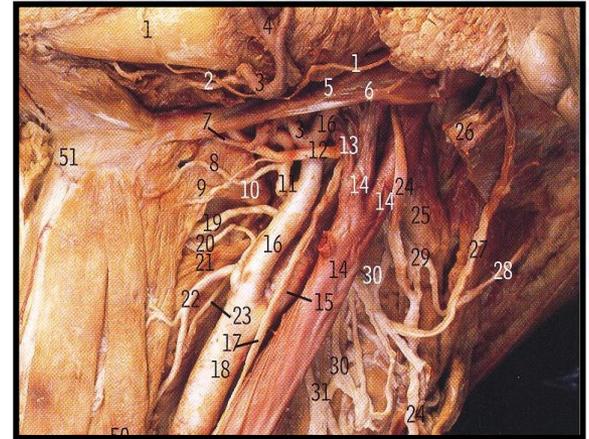

Internal jugular vein

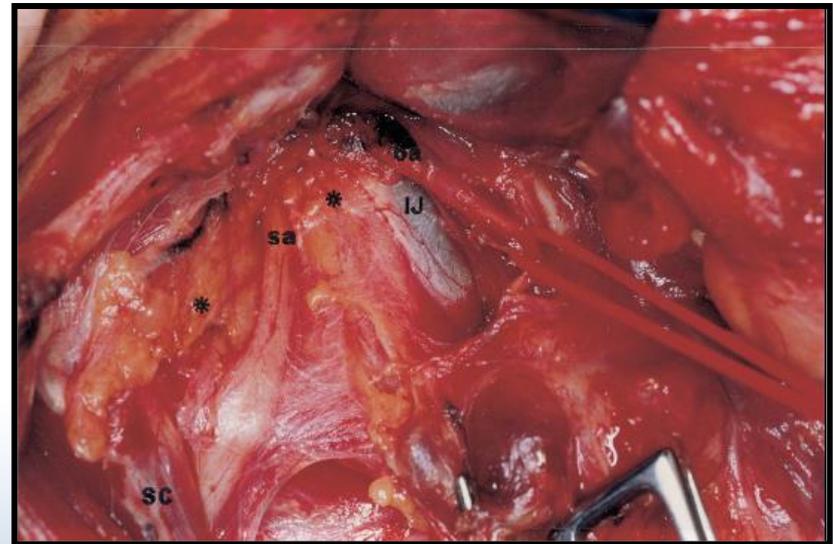

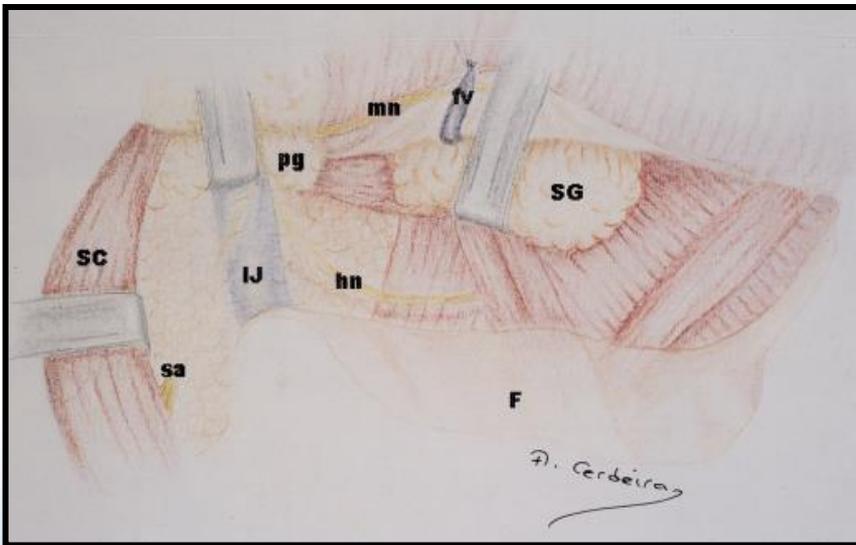

Level II

- **Upper jugular LNs (II):**
 - posterior belly of digastric m.
 - sternocleidomastoid m.
 - skull base
 - hyoid (bifurcation)
- **Ila: below CN XI**
- **Ilb: above CN XI**

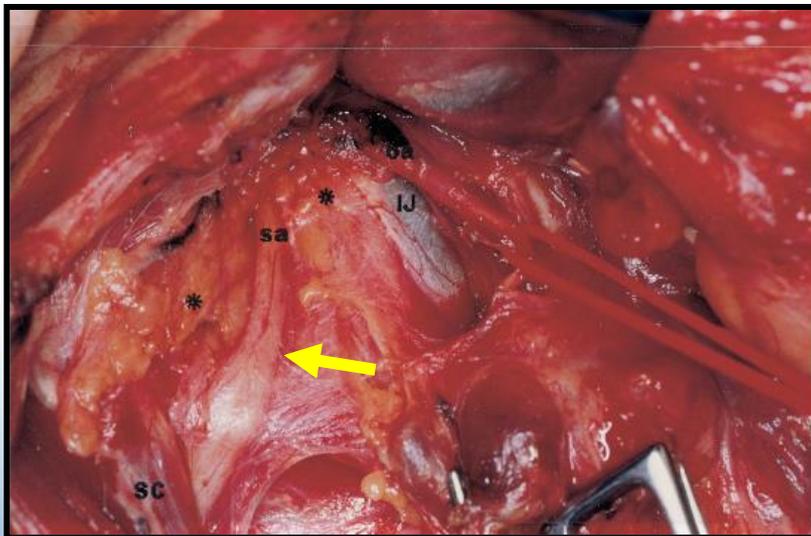

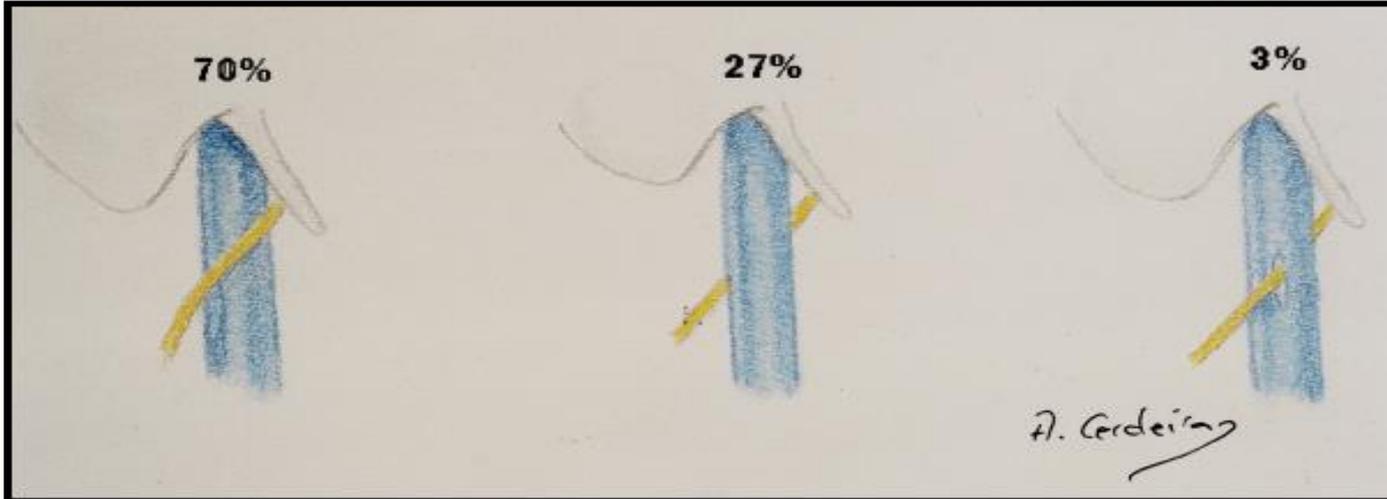

Level II

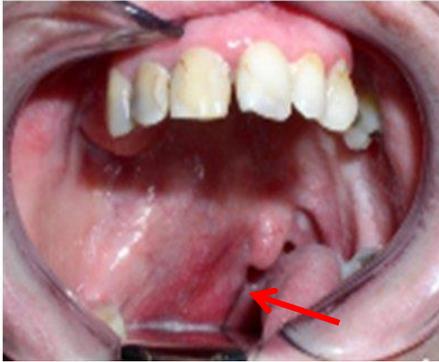

- II: oral cavity, nasal cavity, nasopharynx, oropharynx, larynx, hypopharynx, parotid gland

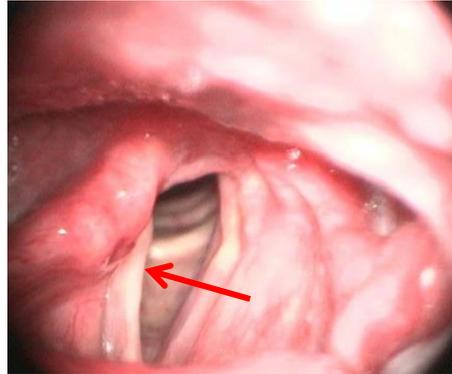

CN XI

IX, X, XI CNs

CN IX palsy

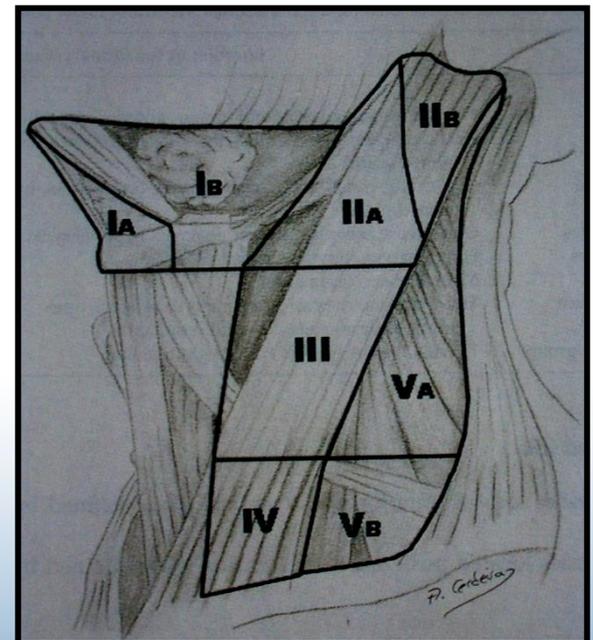

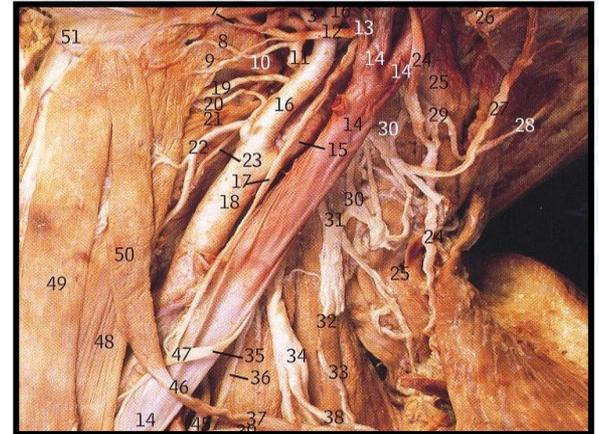

CN X palsy

CN XI palsy

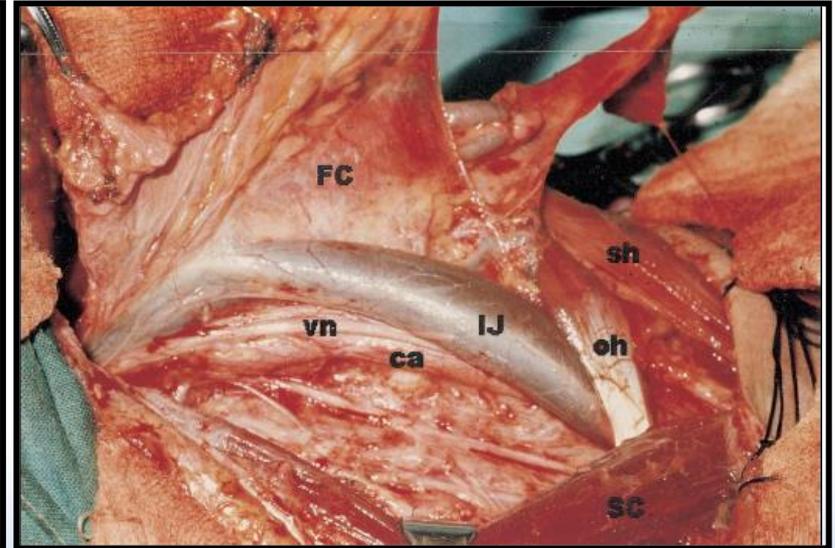

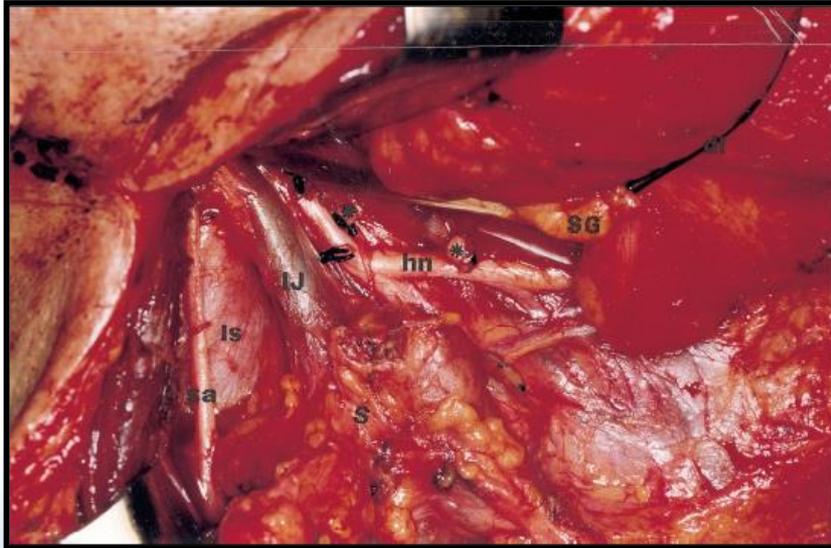

Level III

- **Midjugular LNs (III):**
 - hyoid (bifurcation)
 - sternohyoid m.
 - sternocleidomastoid m.
 - cricoid cartilage (omohyoid m.)

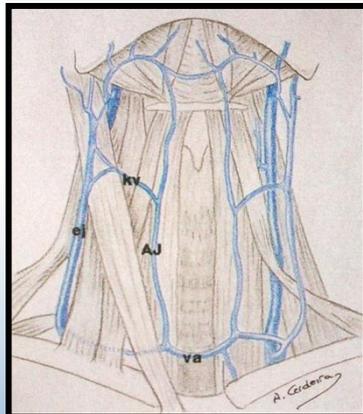

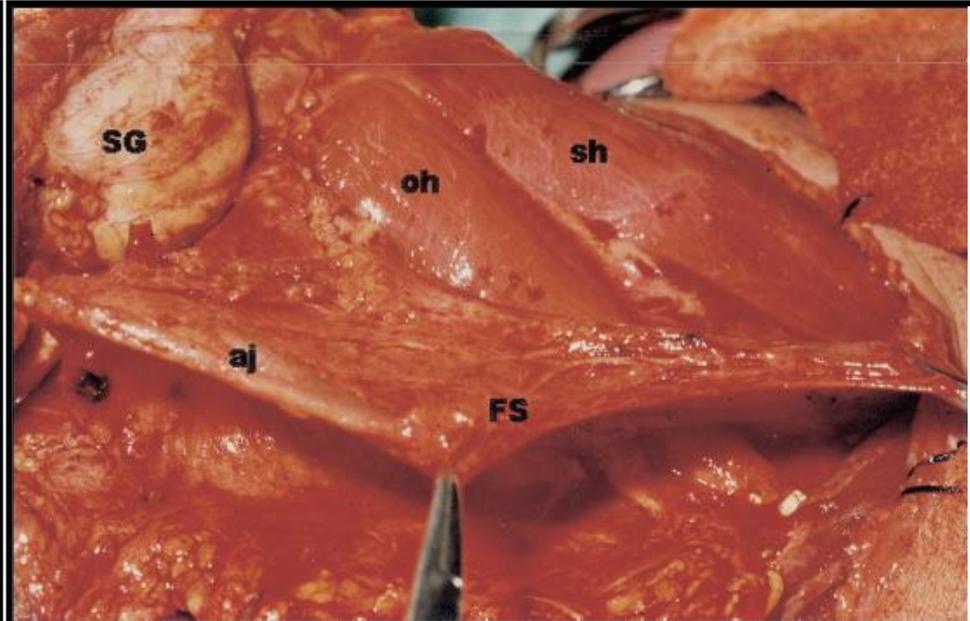

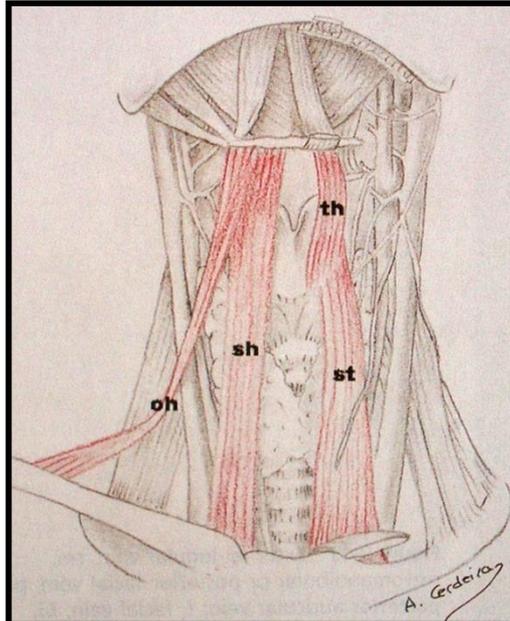

Level III

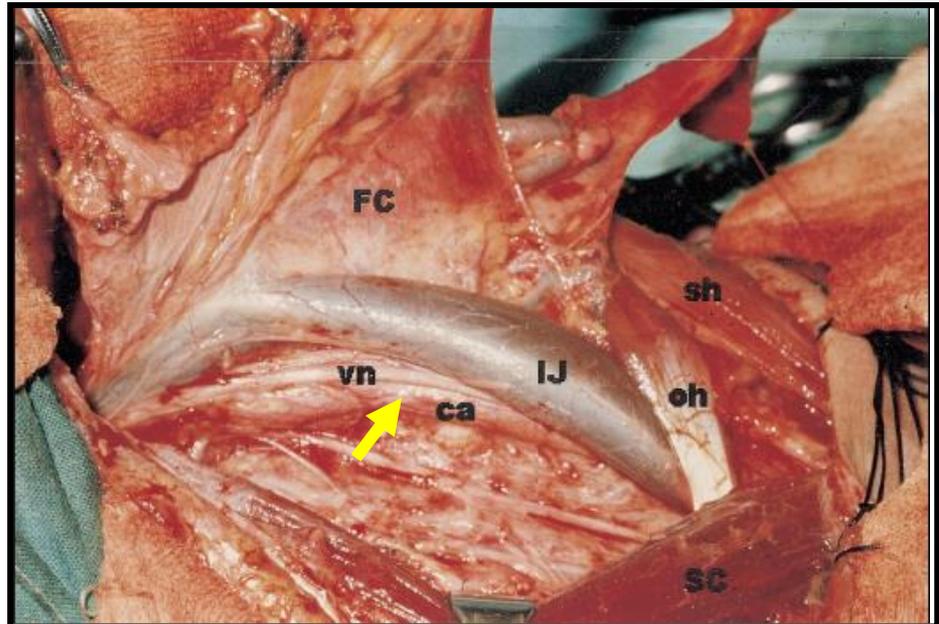

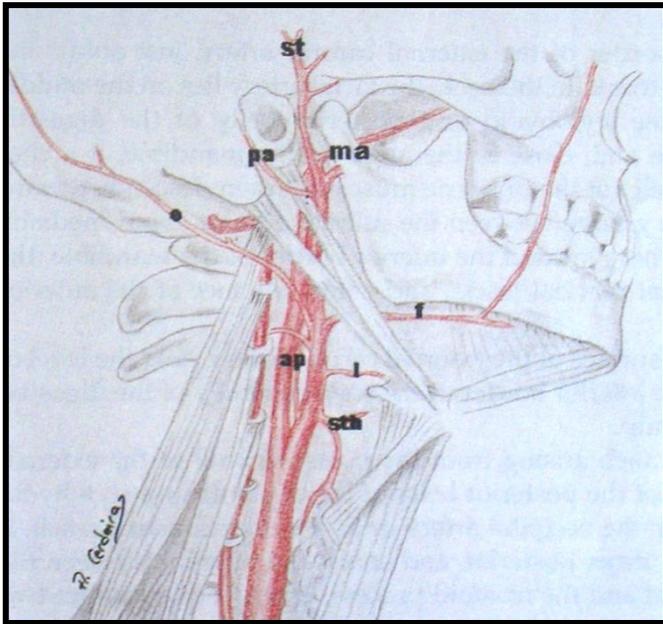

- **III: nasal cavity, nasopharynx, oropharynx, larynx, hypopharynx,**

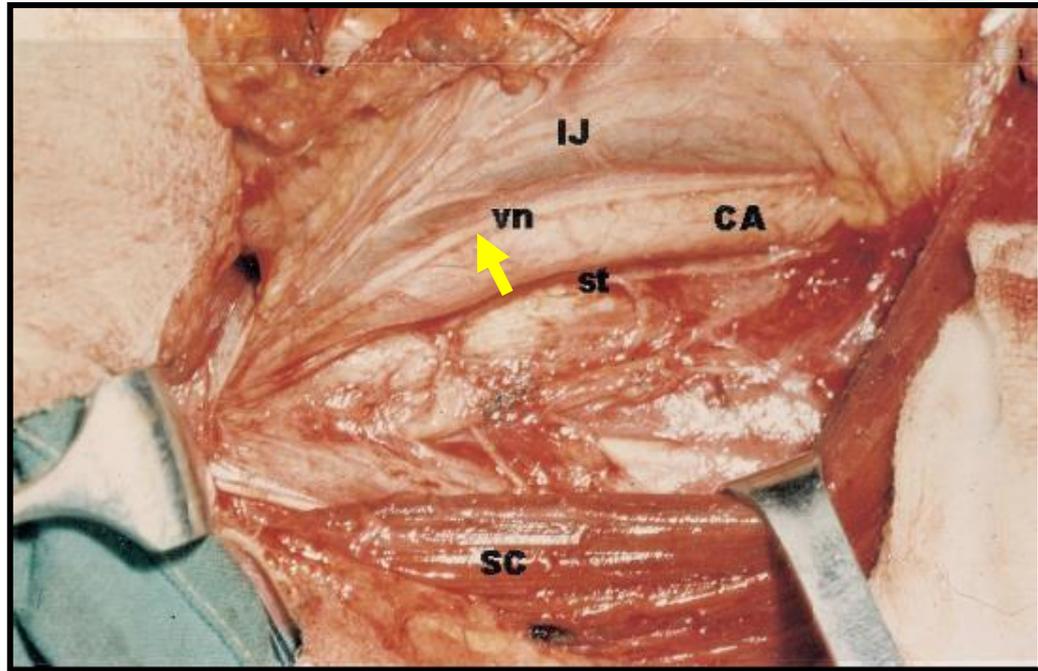

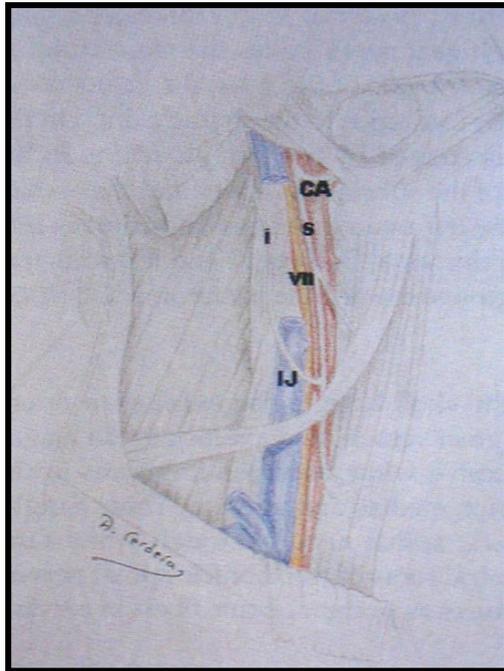

Infrahyoid muscles

Carotid artery

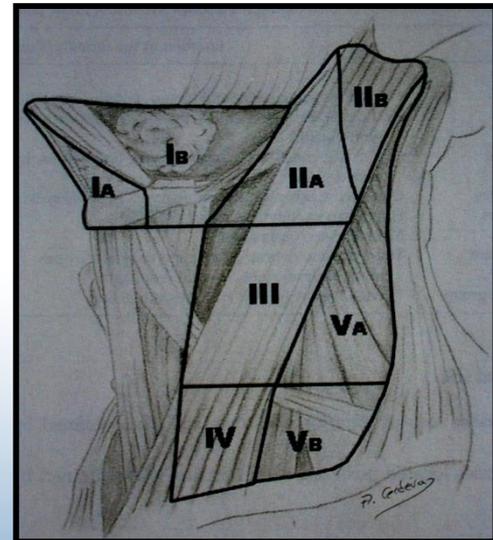

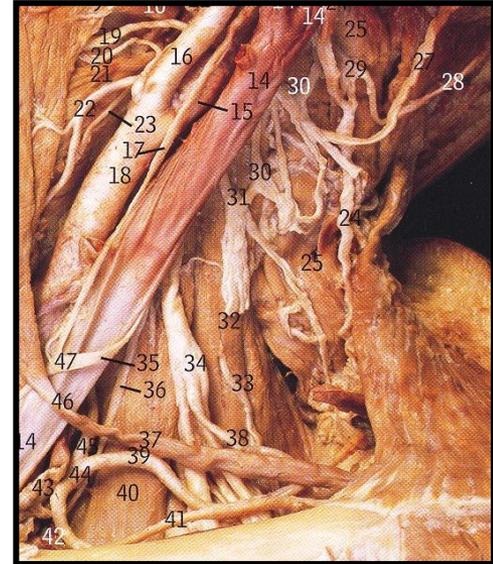

CN X

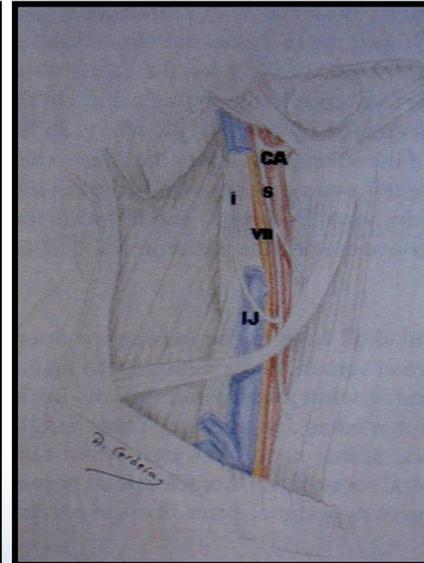

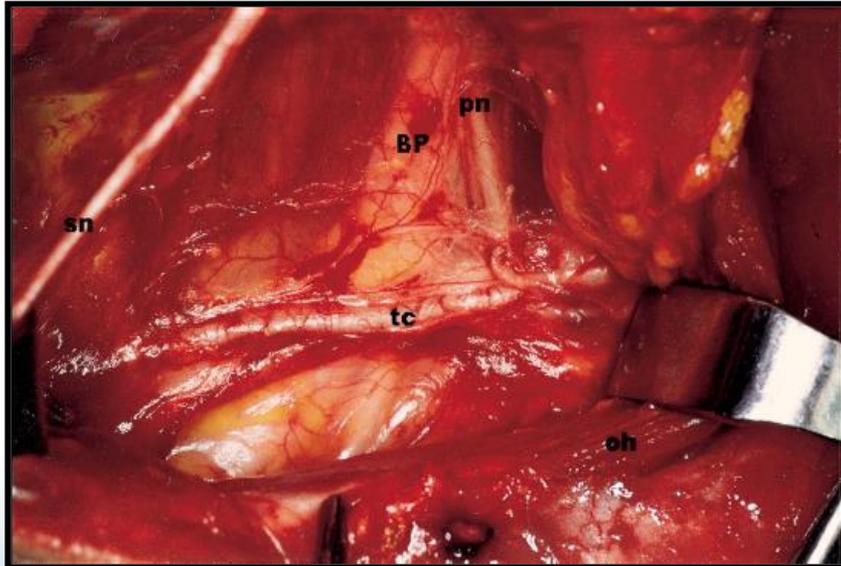

Level IV

- **Lower jugular LNs (IV):**
 - cricoid
(omohyoid m.)
 - sternohyoid m.
 - sternocleidomastoid m.
 - clavicle

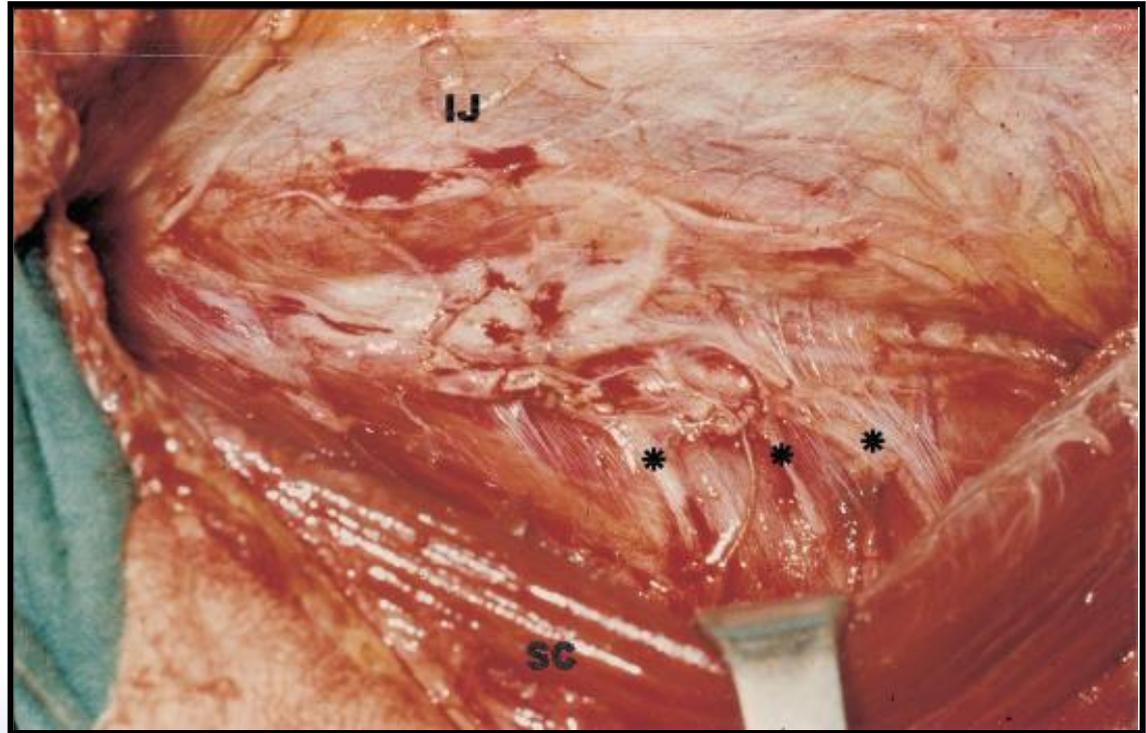

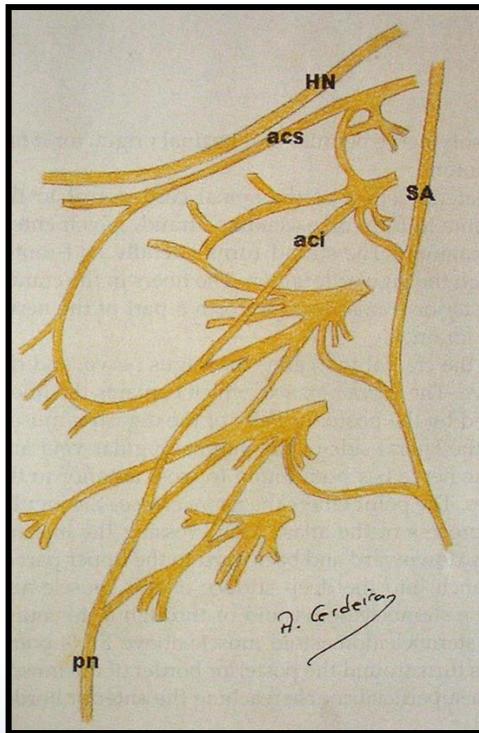

Level IV

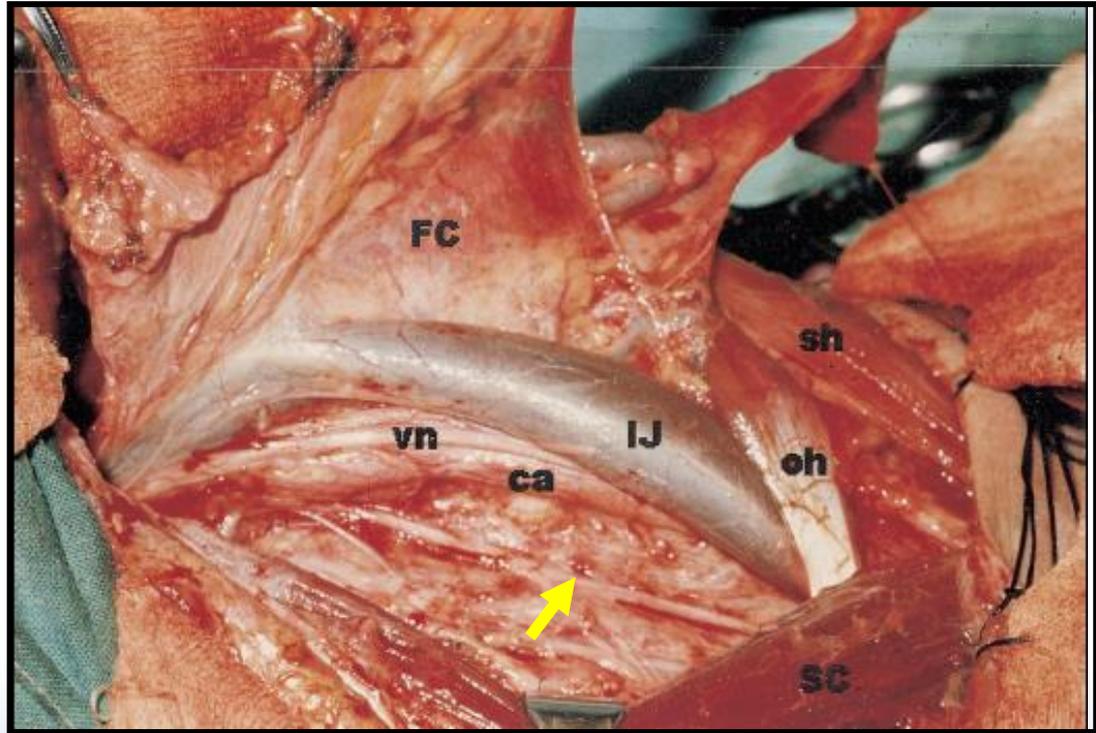

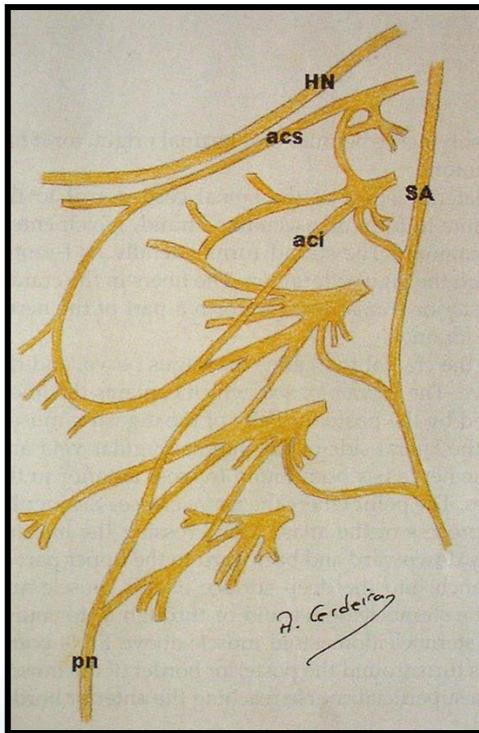

- IV: larynx, hypopharynx, thyroid gland, cervical oesophagus

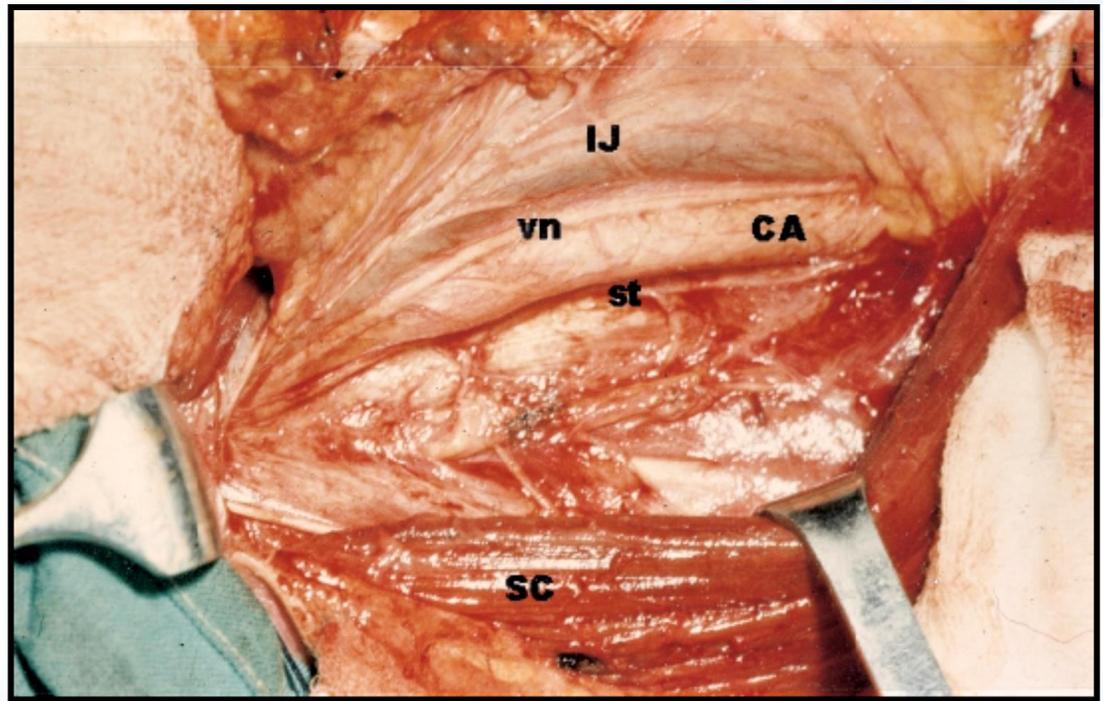

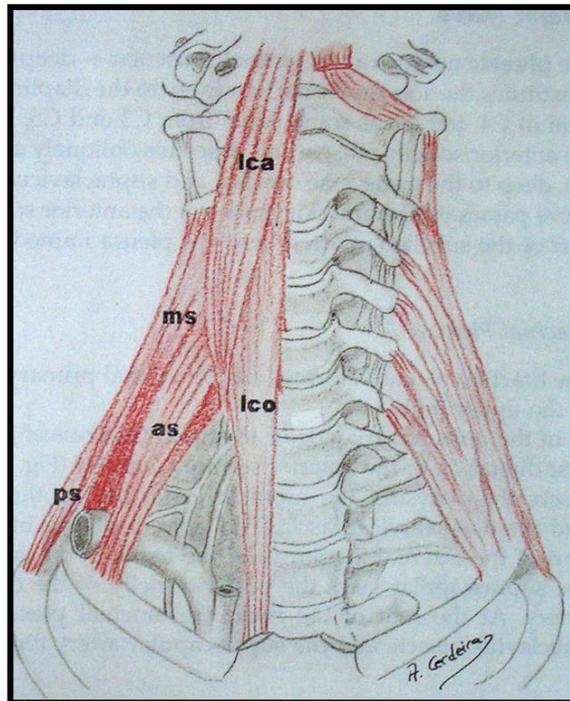

Cervical plexus

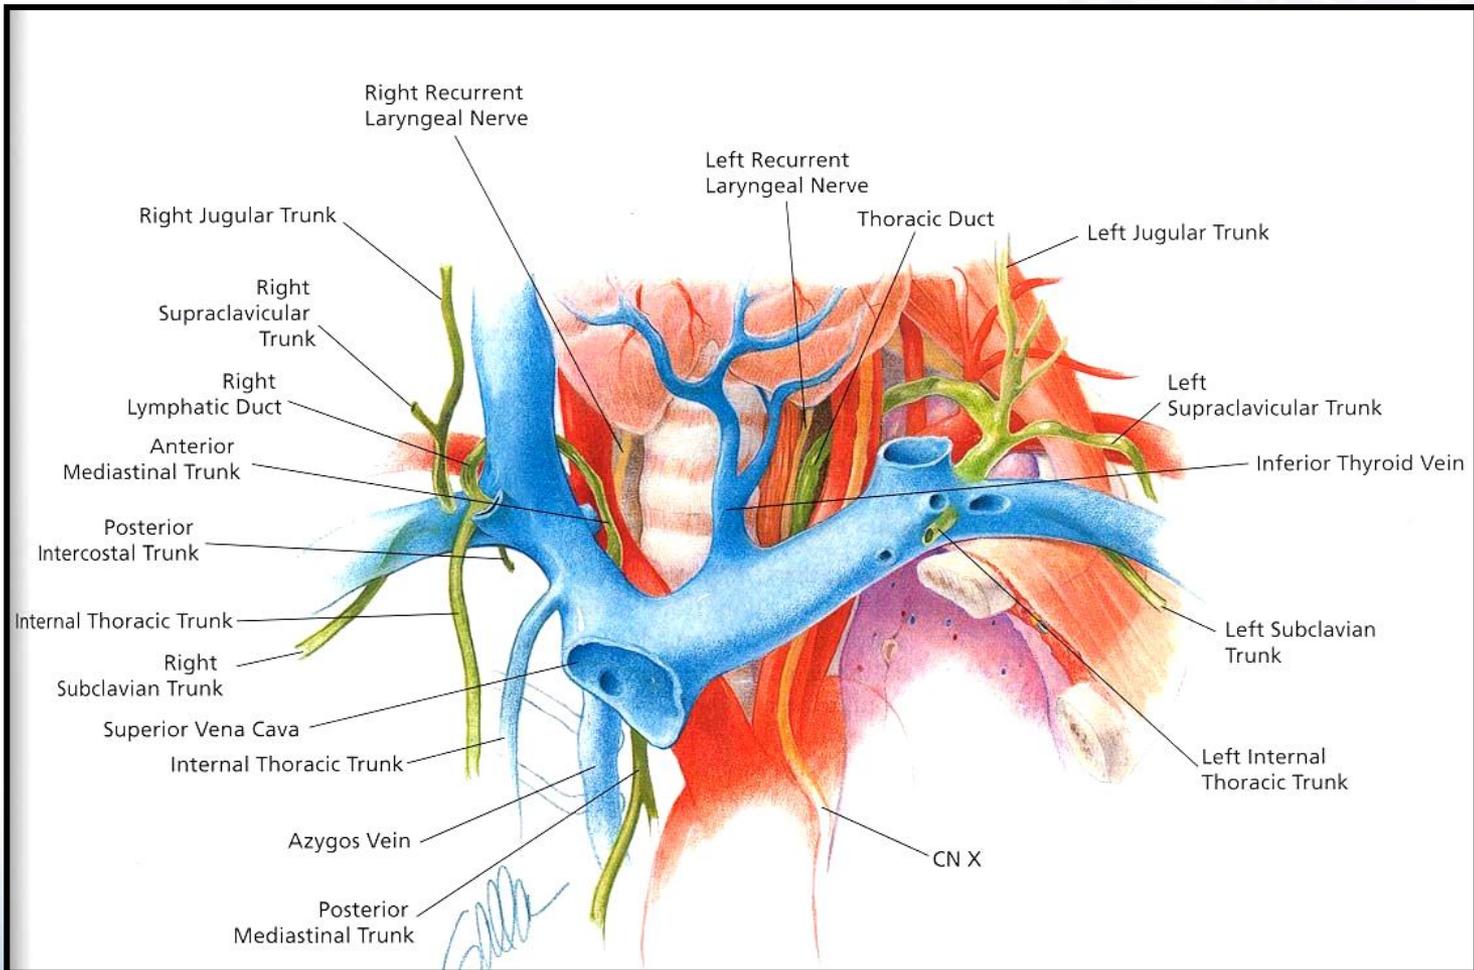

Phrenic nerve

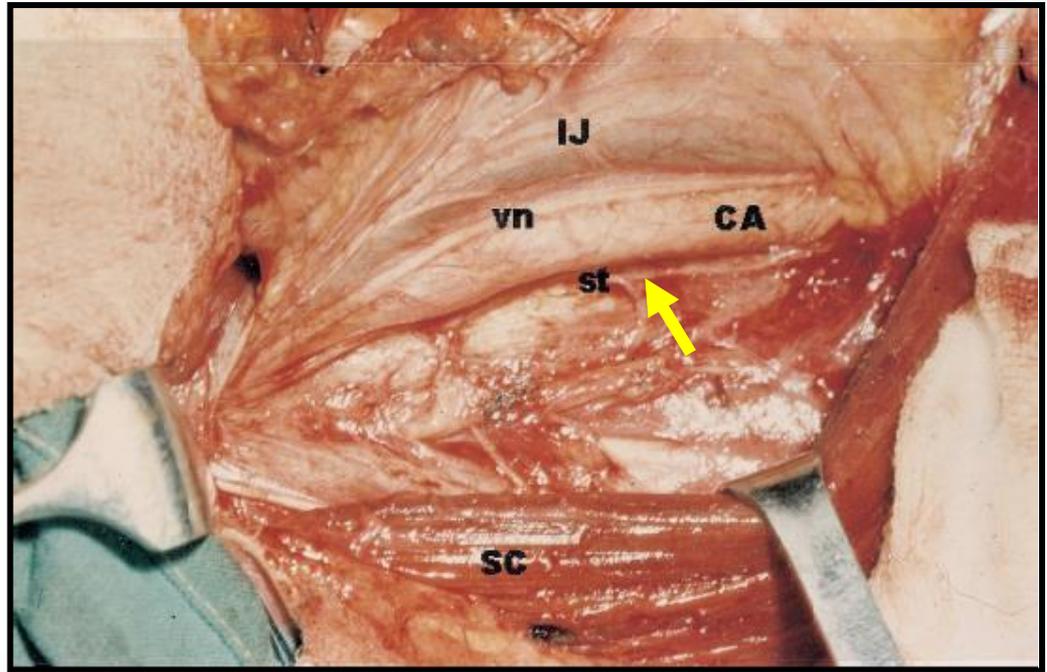

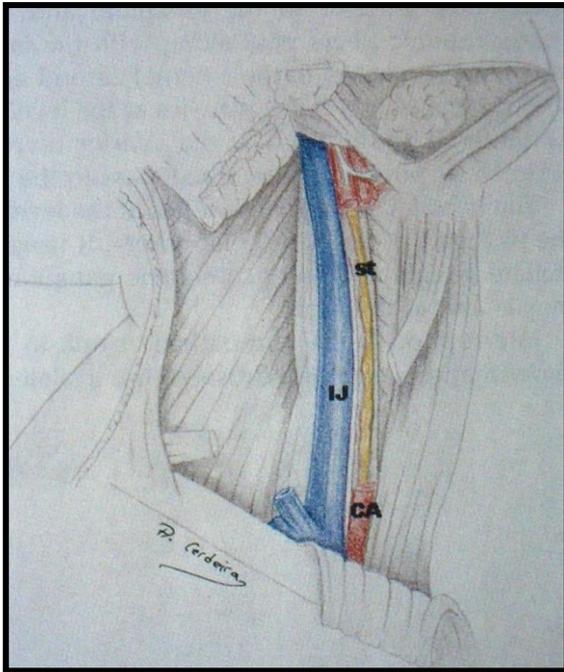

Deep neck muscles

Thoracic duct

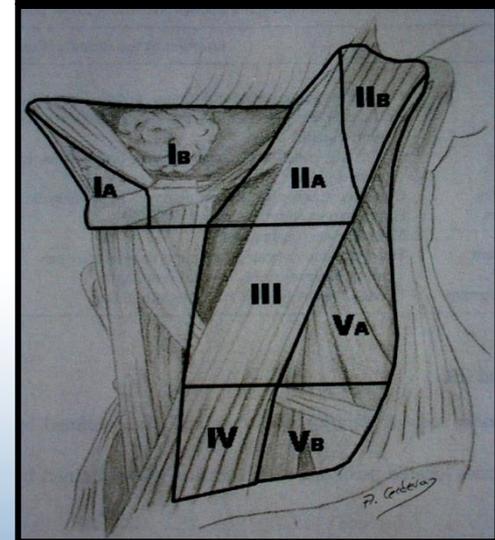

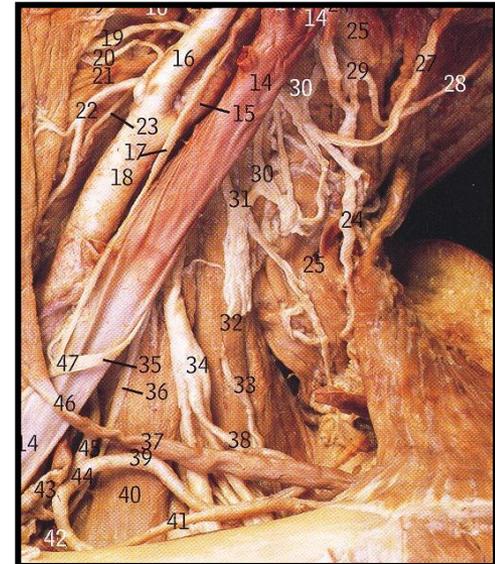

Sympathetic trunk

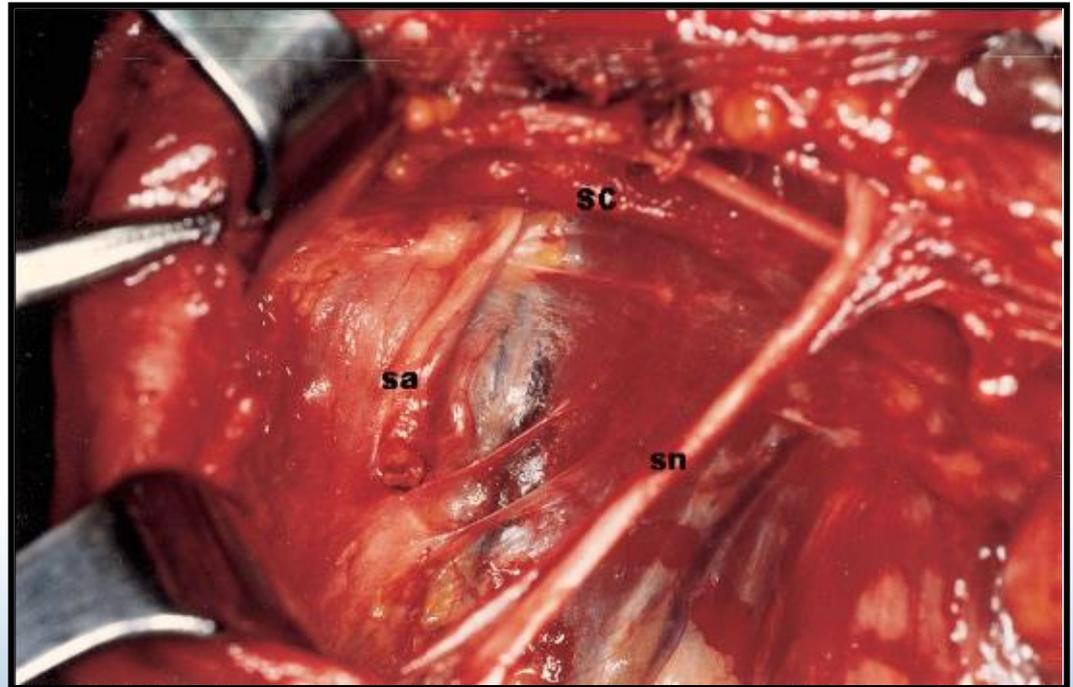

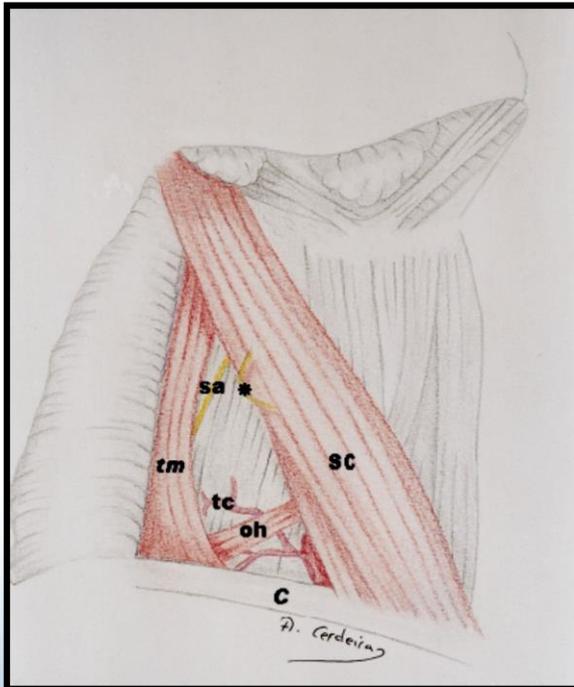

Level V

- **Posterior neck triangle (V):**
 - sternocleidomastoid m.
 - trapezius m.
 - clavicle
- **Va:**
 - along CN XI
- **Vb:**
 - along transvers neck a.
 - supraclavicular LNs

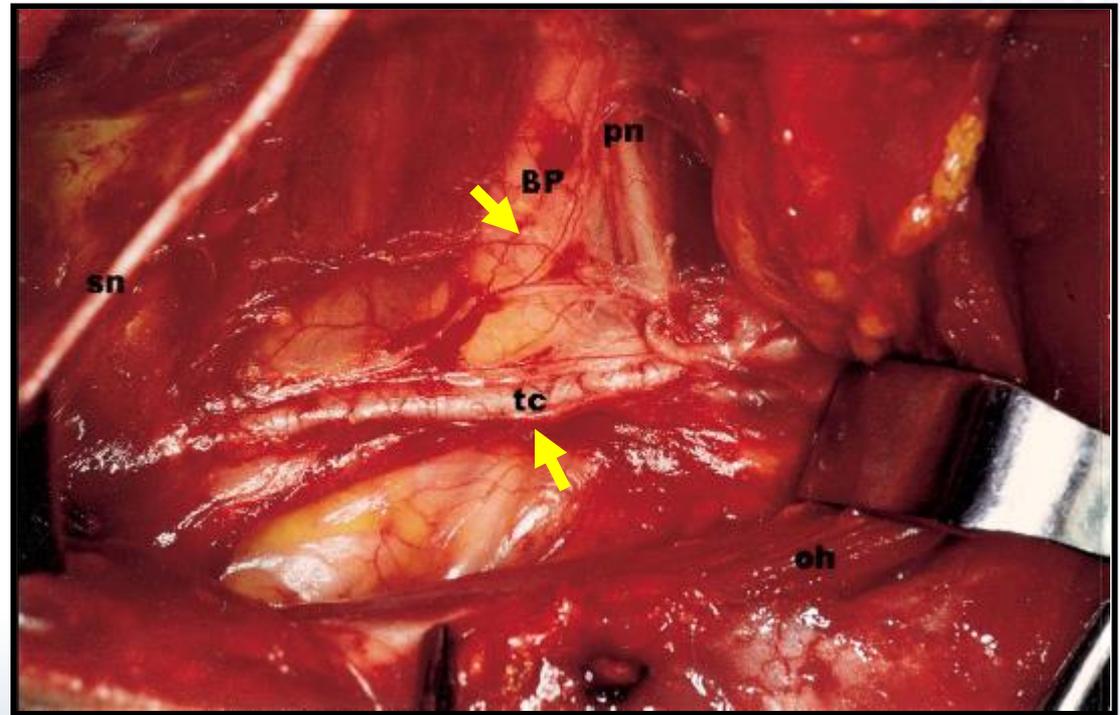

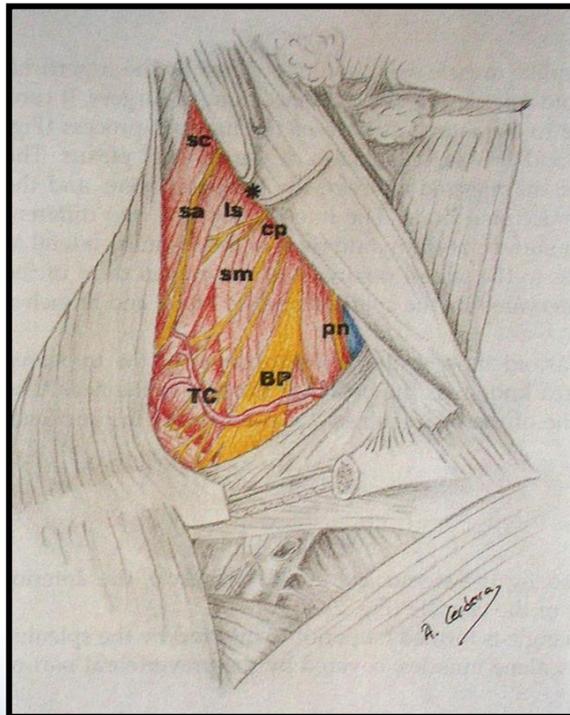

Level V

- **V: nasopharynx, oropharynx, skin of the posterior neck and scalp**

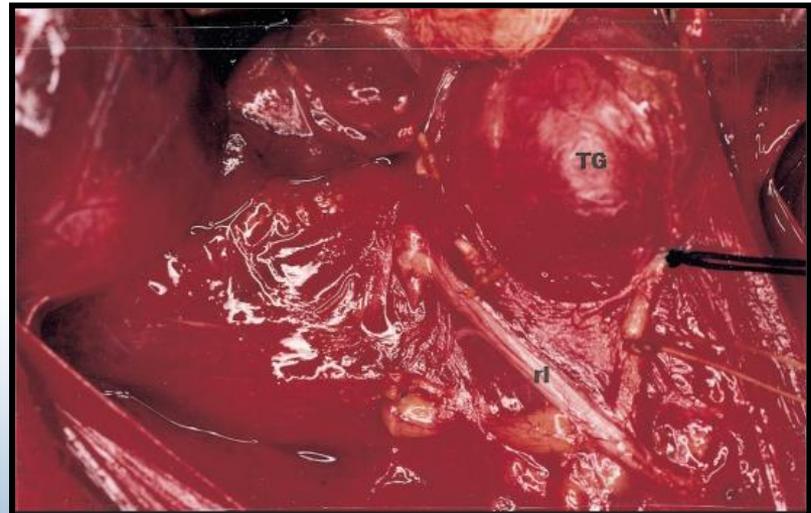

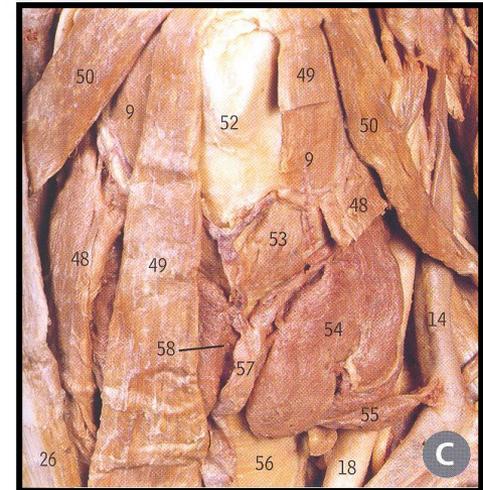

Brachial plexus, transverse neck vessels

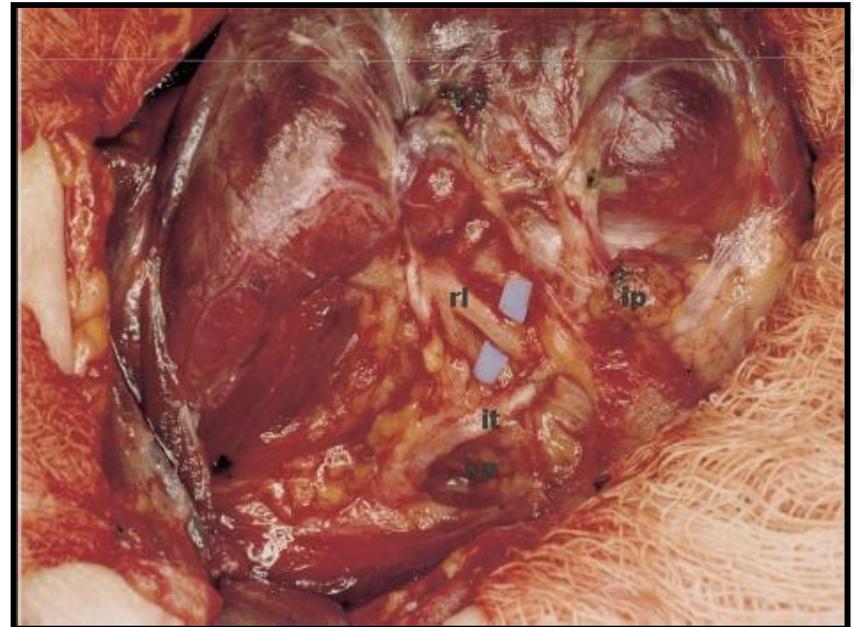

Level VI

- **anterior neck triangle (VI):**
 - **common carotid a.**
 - **hyoid**
 - **jugular notch**
- **perithyroid LNs**
- **paratracheal LNs**
- **precricoid LNs**
(delphian LN)

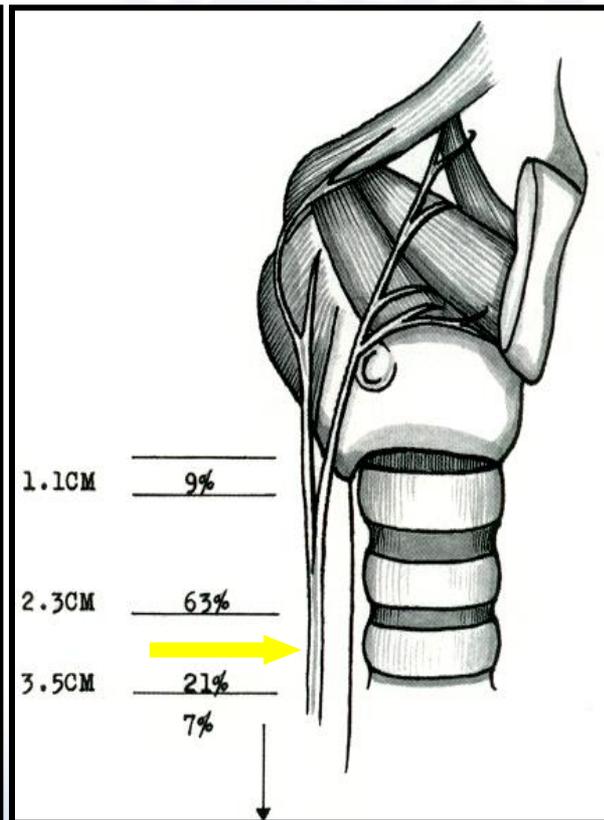

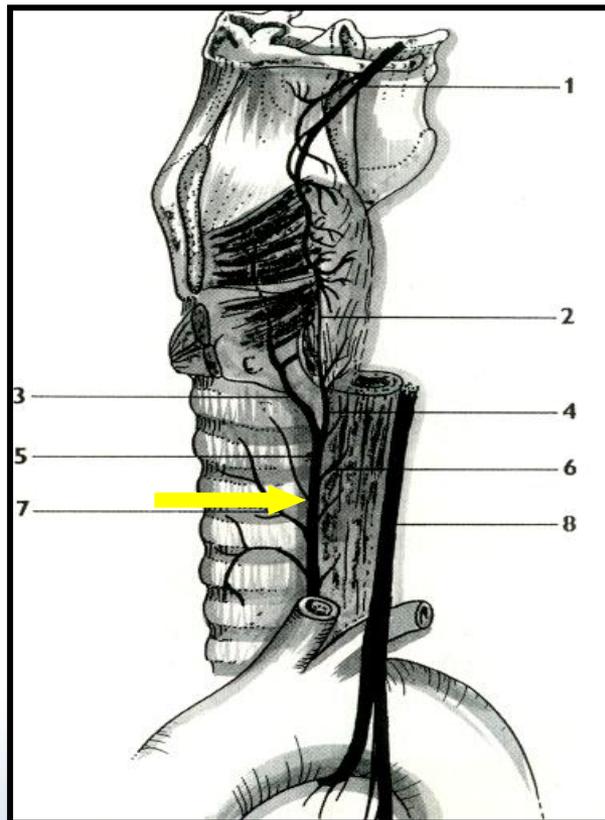

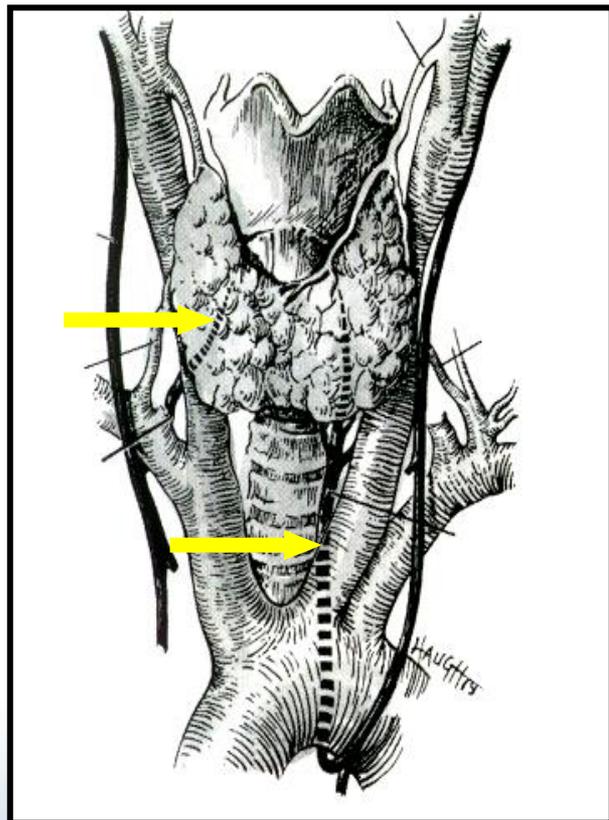

Oblast VI

- thyroid gland, parathyroid glands, larynx (glottis, subglottis), pyriform sinus apex, cervical oesophagus

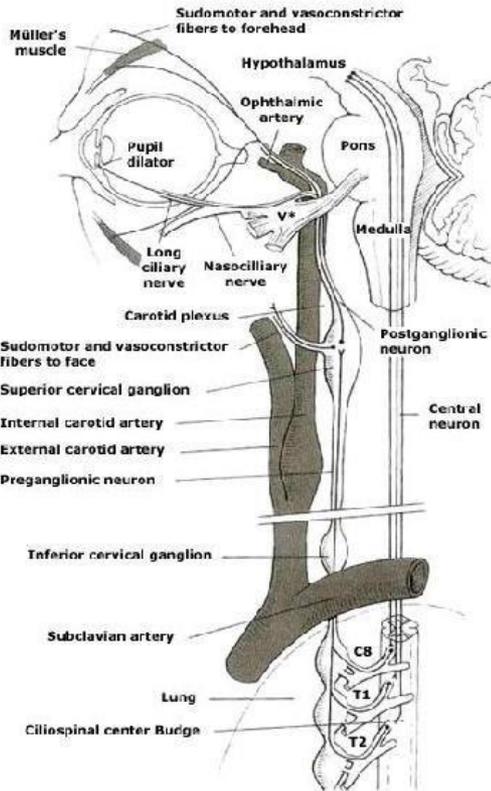

- thyroid gland
- parathyroids
- recurrent laryngeal nerve

Recurrent laryngeal nerve

Horner's syndrome

Sympathetic trunk lesion
miosis
ptosis
enophthalmos
hemifacial anhidrosis

cong. Horner's syn.

schwannoma of sympathetic tr. – postop

THANK YOU FOR YOUR ATTENTION
