

# Course of Clinical Topographic Anatomy (B81312) for Students of General Medicine in Academic Year 2023 – 2024

**Course Head:** [Prof. David Sedmera, M.D., DSc.](#)

**Aim:** Revision of anatomy knowledge before commencing clinical subjects.

**Content:** Important anatomical terms and regions with respect to functional and clinical purposes including medical imaging methods.

**Curricular timing:** The course is taught during 1<sup>st</sup>–3<sup>rd</sup> week of the seventh semester (36 h) and includes: dissection part (105 min) devoted to advanced dissection and demonstration, organized in dissection rooms with participation of lecturers and faculty, and seminars (2 x 45 min) revising anatomy of particular region together with clinical application of this knowledge, organized in the Great Lecture Hall.

Classes are held every second day ([Oct 3, 5, 9, 11, 13, 17, 19](#)); on Friday, Oct 20<sup>th</sup> the course is concluded by **examination** (credit with mark, starting at 4:00 p.m). Detailed examination schedule will be provided to limit crowding of the corridors.

**Credit with mark** will be examined in a way comparable to dissection credit examination in the first year (identification and description of dissected structures) but the mark is put down into your index via SIS. You draw a set of two questions from the list, available on our website: <https://anat.lf1.cuni.cz/english/vyuka/vseob4/aotazky.pdf>

**Recommended books:** Clinically Oriented Anatomy by Moore et al.

Netter's Clinical Anatomy, 4th Edition, Elsevier, 2018

**Schedule:** [2.30-4.15 p.m.](#) dissection rooms, [4.30-6.00 p.m.](#) Great Lecture Hall

Date	Topic of the lecture
Oct 3	Head
Oct 5	Neck
Oct 9	Thorax
Oct 11	Abdomen
Oct 13	Pelvis
Oct 17	Upper Limb
Oct 19	Lower Limb
Oct 20	<a href="#">Credit with mark</a>
